

Cable Stripper H.D. No. 1000

Introduction

WEICON has been developing and producing various types of cable stripper since 1967. These premium quality tools are TÜV-tested, carry the GS seal for verified safety, and were developed taking occupational safety and user-friendliness aspects into account. The WEICON range includes cable strippers, cable dismantling tools, wire strippers and various multi-function tools for professional users.

Description

WEICON cable strippers allow all common round cables to be stripped accurately, quickly and safely. The cable stripper product family includes various types which have different additional functions, thus meeting the individual needs of the users.

The Cable Stripper HD No. 1000 is very robust and allows particularly thick cables to be stripped accurately, quickly and safely. The different layers of multiple-insulated cables can be easily cut open with the HD No. 1000. The curved blade tip limits the cutting depth, preventing damage to the conductor. The stripper is tested for work on live wires in accordance with VDE regulation IEC 60900:2004 and can withstand up to 1000 volts.

Technical data

Cable type	Multiply insulated and thick cables with PVC insulation
Approval/certificates	Routine testing in accordance with VDE- regulation IEC 60900:2004
Material	Glass fibre reinforced polyamide
Length	200 mm
Weight	96 gr

Note

Working with WEICON Stripping tools is only permitted with potential free wires and conductions.
