About Us

There is a major role of Automation in daily life and the global economy. Engineers endeavor to combine automated devices and organizational tools to make complex systems for a broad range of human activities and applications. At Lakshmi Electro Controls & Automation, we offer a range of solutions for equipment industries. With dependable engineering expertise and industrial knowledge, we provide the right method for Industrial Automation. We offer excellent process control automation products such as Weicon Stainless Steel Spray, CNC tool Grinding Machine and cutter Grinding Machines, and Machine Tools Accessories etc. Also, we keep up with Annual Maintenance Contracts for the Electro Mechanical Drives and CNC Machines etc.

We LECA have earned a distinguished reputé in the industry through continuous effective automation solutions, quality electronics & electrical supplies and excellent customer services. Also, our company is an authorized Dealer / Integrator / Distributor of GIVI Misure Products, Delta TAU, WEICON Wire Strippers, Technical Adhesive, Tool Grinding Software from Tool Wizard, Bharat Bijlee Ltd. for KEB VFD & Servo Drives, Human Machine Interfaces (HMI) by Omron, AXOR Industries (DC Drives), and more. Having 25 years of experience in the Industrial Automation Technology, we provide the best possible for client's needs / applications. We have deep understanding of the subject with the capability to present an array of innovative products at very competitive prices. Our commitment towards ethical business practices and customer benefit helps us to meet the needs of a wide patronage across the country, and globally. From AC/DC drives to smart controllers, and Machine Tools Accessories to HMI, we have all you need for process control & automation.

Key Facts

No of Staff	12
Year of Establishment	2001
OEM Service Provided	No
Memberships	MSME

Our Products

Pipe Repair-Kit

Our Events

Tool Grinding Software
