# WEICON HB 300 Epoxy Resin

### pasty steel-filled high temperature resistant

WEICON Plastic Metal type HB 300 is pasty, steel-filled and high temperature resistant up to +200°C (briefly up to +280°C). It is processed with a mixing ratio of 1:1.

WEICON HB 300 is also suitable for applications on vertical surfaces and can be used for the repair and bonding of cast and metal parts, for filling in blow holes, for repairing damage to containers, carriages and machine parts and for sealing pumps and pipes.

WEICON HB 300 can be used in machine and system construction, in apparatus engineering, and in many other industrial applications.

# **Technical Data**

Colour after curing Mixing ratio by weight resin/hardener Density of the mixture (200g preparation) Viscosity of the mixture Consumption at a coating thickness of 1,0 mm Maximium layer thickness for each working step Pot life at +20°C (+68°F) 200g preparation Curing time mechanical loads Final hardness after Mean strength at +25°C (+77°F) acc. to DIN EN 1465/ASTM D 1002 Pressure Pull Bending E-Modul	poxy resin steel-filled

Information about surface pre-treatment and processing can be found in the manual.

# Storage

Store WEICON Plastic Metal at room temperature (but up to max. +25°C) in a dry place. Unopened containers can be stored for 18 months at temperatures from +18 to +28°C (Epoxy Resin Putty max. 3 years). Opened containers should be used within 6 months.

# Safety and health

When using WEICON products, the physical, safety technical, toxicological and ecological data and regulations in our EC safety data sheets (www.weicon.com) must be observed.

#### Available sizes:

10450002	WEICON HB 300 Epoxy Resin 0,2 kg
10450010	WEICON HB 300 Epoxy Resin 1.0 kg

#### Accessories:

10850005 10953001 10953003 10953020 Glass Fibre Cloth Tape, 50 mm x 1 m Processing Spatula, short Processing Spatula, long Contour Spatula Flexy,

#### Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation. We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.
