## About Us

Vostro Plast India Pvt. Ltd. is a trusted manufacturer and supplier of premium quality PVC Bend, GI Concealed, Tycon Casing Capping, PVC Conduit Heavy Pipe, PVC Conduit Pipe, and other similar products. The company has acquired a reputed position in the market owing to its innovative approach, customer-friendly business policies, high professionalism, and commitment to our work. Our products are mainly used in electrical power installation works and electrical supply lines.

Offered under the brand Tycon, our products have been appreciated by the customers for exceptional quality, dimensional accuracy, reasonable prices, and durability. We use the best-grade raw materials in production to ensure flawless quality of every product. Our elaborate production plan, quality control mechanism, pre-production, inline, and post-production inspections ensure that our products comply with all the quality parameters. We have been working with a focus on achieving total customer satisfaction. We are happy that our customers are 100% satisfied with the product quality and pricing.
