About Us

Epsilon Automation is a leading manufacturer and supplier dedicated to delivering innovative and reliable automation solutions to industries across India. Based on a strong foundation of engineering excellence and industry expertise, we specialize in the production of high-performance machines such as Auger Filler Machines, Thermal Inkjet Printers, Filling Machines, and Handheld Inkjet Printers. Our goal is to enhance productivity, accuracy, and efficiency for our clients by offering technologically advanced and user-friendly equipment tailored to meet diverse packaging and printing needs.

From precision manufacturing to stringent quality checks, each product is designed to meet industry standards and exceed customer expectations. Backed by a team of skilled professionals, modern infrastructure, and a customer-first approach, we ensure timely delivery, excellent support, and long-lasting performance in every solution we provide. Whether you are in food processing, pharmaceuticals, cosmetics, or any packaging-intensive sector, Epsilon Automation is your trusted partner for smart automation solutions that empower growth and efficiency. We do not just build machines; we build value.
