## About Us

Incorporated in the year 1989, we have an impactful market presence as a supplier and trader of an unmatched array of products that include Essential Oil, Camphor Essential Oil, Industrial Chemicals, Pine Oil, Chemical Compound, and many more. We prepare our entire product array by using certified-grade natural and artificial chemical compounds to assure perfection. The chemical processing techniques implemented by us are in compliance with the current industry standards. Further, our Camphor Essential Oil have a huge demand in the market owing to their high therapeutic value, unique aroma, long shelf life, ideal concentration, etc. Quality control for our products is very tough and highly capable of finding any quality degradation.

We have established a full facility infrastructure which is equipped with advanced technology facilities and needed resources. Our production unit is equipped with some of the best machines, tools and equipment for the delivery of defect free products at fast pace. The installed machines are examined on a regular basis to service them and maintain their life and performance. We have a team of self motivated, hardworking and goal focused members who meet every specification of clients with complete dedication. Moreover, we have a large distribution network which is accurate in delivering the orders of clients on time.
