About Us

Indian Mold Industries- FRP & Fibreglass Mould Manufacturer Indian Mold Industries is a manufacturer and supplier of FRP and fibreglass moulds for RCC precast, construction, landscaping, and architectural applications. Based in Rohtak, Haryana, India, we offer a diverse range of moulding solutions for concrete products, decorative elements, and construction requirements. Our product range includes Garden Bench Moulds, Compound Boundary Wall Moulds, Cement Jali & Ventilator Moulds, Tree Guard Moulds, Pillar & Baluster Moulds, Railway Platform Coping Moulds, Heritage Item Moulds, Decorative Moulding Moulds, Flower Pot Moulds, Manhole Moulds, and more. Our moulds are designed to support practical production requirements, detailed finishes, and consistent results for precast manufacturers, contractors, builders, and dealers.

Indian Mold Industries is located in Rohtak, Haryana, India, and began its operations in 1963. We are manufacturers and suppliers who are involved in providing reliable molding solutions for construction, decorative, landscaping, and industrial processes. Due to the years spent in the industry, the company has been able to acquire a quality-centered method that has enabled it to construct good products for optimal performance in terms of durability, precision molding, high-quality outcomes, and ease of handling. The products include Antique Items Mould, Boundary Wall Mould, Flower Pot Mould, Industrial Item Mould, Pillar Baluster Mould, and Ventilator Jali Mould, among many others. All the products are made of rugged materials, smooth surfaces, ease of mold removal, effectiveness, and durability which makes sure that production and usage of the products is easy and effective. Our firm also provides custom services which allow customers to solve specific problems. The company also has a team that works hard to ensure that production is done at a fast pace, with quality incorporated. Indian Mold Industries has been known for its experience, versatility, efficient solutions as well as the reliability of molds.
