About Us

Experience is one of those wonderful string of life, which helps you to identify a mistake and rectify it. Taking this experience of about 90 years as leverage, Pakrashi Harmonium has become proficient in the artistry of making harmonium. The company is a unique creator of harmonium, and musical instruments like electronic musical instruments, string instruments, etc., which embellish the three important elements of music-melody, harmony and rhythm. We have relentlessly experimented with the development of atonal music and over the years we have undergone several qualitative refinements and various improvements resulting in a more dependable and contemporary musical instruments, used in several music styles. We have dependable associations with reliable vendors to sustain our position of Professional Tabla, Indian Harmonium, and other professional electronic musical instruments manufacturer from Kolkata. These electronic instruments produce sound with the concept of electronics and include a control panel for its adjustment via increasing/decreasing its frequency, pitch or duration of every note.

Pakrashi-Harmonium Private Limited is a company providing wide range of basic and professional musical instruments. We are known as the trustworthy manufacturer and exporter from India. We are located at Kolkata, West Bengal in India from where we are providing Harmonium, Tabla, Tanpura, Sruti, Blec Tabla, Portable Harmonium, Folding Harmonium, and other Indian Musical Instruments. Basically, our specialization resides in 'Pakrashi Harmonium', wherein we provide Professional Harmonium, and Beginners Harmonium. The packaging of all the products is avant-garde and in chorus with the international export norms. The boxes in which these are packed, should always be kept in horizontal direction. Harmonium is a part of 'free-reed aerophones' family. This small, and tabletop size instrument has bellows installed at its back, which is pumped using one hand, whereas the other hands works on its keyword. In case of standard construction, the 'Pakrashi Harmonium' will always have a wooden box (body), bellows, keys, coupler, reeds, scale changer, reed board, and stops. In the Indian music industry, our instruments are widely used in all music forms, be it Hindustani, classical, film, or devotional music.
