## About Us

Sky International is a reputable name in the market, renowned for its quality and excellence as an importer, exporter, supplier, and trader. With a portfolio of products that is diversified and of high quality, we serve industries from metallurgy and electricals to textiles and food. Our graphite crucibles, like silver melting clay graphite crucible and aluminium melting graphite crucible, have high thermal conductivity and high temperature resistance, making them ideal for high-performance applications. Our insole shoe rexine is flexible, long-lasting, and water-resistant, and our printed rayon fabric for clothing is renowned for its breathability and deep color retention.

Apart from industrial and textile products, we also trade in high-quality electric solutions such as porcelain kit kat sockets with improved insulation and heat resistance. Our chemical segment comprises high-purity and stable composition industrial-grade liquid sulphur dioxide for various applications. Moreover, we also serve the coffee industry with smoky roasted coffee beans that provide rich aroma, intense flavor, and smooth finish, as well as premium AA arabica coffee beans with balanced acidity and pleasant taste.
