S.S. ELECTROTECH INDIA is a high-end private enterprise with the integration of R&D, production, & sales. Our total systems approach to product development is a comprehensive engineering philosophy that combines that most advanced LED sources, driver technologies, optics and form. The result is highly-reliable LED lighting solutions for both indoor and outdoor that reduce energy consumption,

extend lifetimes and maximize illumination performance and quality with increasing sales every year, S.S. Electrotech group of Industries have become one of the leading players in Electrical Products in India. We cater to a high profile list of clients and have consistently managed to achieve rapid annual growth. Our long standing relationship with our customers is owing to the high standards of quality and customer service and that is the reason why the company has seen the success it has achieved from its humble beginning. The Saboli, Kundli plant, our biggest, which has ultra modern 3D Tool Designing & Development Facility and State of Art Injection Moulding machines. S.S. Electrotech India has always worked in close proximity with its customers to understand their needs and requirements, and then worked on to fulfill them to their utmost satisfaction meeting their quality and quantity demands, in a timely and cost effective manner.

VISION

With a vision to diversify and conquer new horizons we decided to manufacture Electrical Modular Switches, Sockets, Frame Plates Fan Regulators, Power Distribution Boxes and LED Lighting Solutions-Bulbs, Panels, Street Lights, Flood Lights, Tube Lights etc. We will venture on thinking outside box, making innovative products for the new markets, evolving with the time and the industry to cater for our customers providing reliable, high quality and competitively priced products to cater to various sections of the society.

MISSION

- ▶ Save Power which is one of the most critical aspects of today's national building exercise.
- ▶ Contribute our organization effort to the cause of Global Warming.
- ▶ Reduce CO₂ emission using Green Energy.
- ▶ Spread our mission and vision to as much to **HELP CREATE BETTER WORLD** for our future generation.

LED BULBS / LAMPS

LED retrofit lamps, with a life of 50,000 burning hours are the best choice for replacing incandescent lamps for household. These lamps consume 90% less electricity than conventional GLS lamps for the same light experience. These lamps contain no mercury. ELINE lamps are available in sparkling Warm White (WW) / Cool White (CW).

LED TUBE BATTEN LIGHTS

Energy saving ready to use surface & wall mounted LED Batten light with high quality diffuser and robust construction, are undoubted champion for your regular lighting purpose.

FINISH

Milky white, high quality poly-carbonate diffuser for glare free light distribution.

MOUNTING

It comes with mounting clamps & power supply cable in the centre of the fixture for easy installation.

LED SLIM PANELS

SLIM PANELS (RECESSED)

Deluxe premium range diffused soft optics, LED Panel Fixture suitable for recess mounting.

ELECTRONIC DRIVER

Powered by a separate electronic driver, (SMPS based constant current supply)

MOUNTING

Fixed into false ceiling by means of 2 Nos. SS spring/clips provided.

LED STREET LIGHT

STREET LIGHT

Ultra energy saving & environmental friendly long life versatile pressure die-cast aluminium road way luminaire with high power LED light source.

ELECTRONIC DRIVER

Powered by high protection electronic driver. (SMPS based constant current supply)

MOUNTING

Suitable for pole mounting with bracket arm OD as per table. Recommended mounting height with suitable in ground reinforcement is 3-10 mtr.
