# HDPE Grill

Constructed with steel and extra-strong strands of High-Density Polyethylene twine, our bird exclusion system creates an impenetrable barrier that denies birds the access to any architectural structure on your property. The HDPE netting is then attached to the cable with rings, enabling a secure fit while allowing you to access the enclosed area for routine maintenance.

## FEATURES OF HDPE GRILL:

- \* Manufactured from specialized polymers
- \* Softer feel.
- \* A distinctive combination of highest knot Breaking length and excellent abrasion resistance.
- \* Durable and strong.
- \* Ideal twine geometry.
- \* Square Net.
- \* Less wear and tear.
- \* Low mud penetration.
- \* Thermo-stabilized for dimensional.
- \* Uniformity and stability of the mesh.
- \* High abrasion resistance.
- \* Uniform mesh size and tight knots.
- \* Good dimensional stability.

## HDPE GRILL

### Product Details:

- Material - HDPE(High Density Polyethylene)
- Mesh Size - Available in 20mm, 25mm, 40mm, 50mm
- Applicable Area - Residential Complexes, Restaurants, Food Industries, Factories, Hotels, Resort etc.
- Length - 10-15 meter
- Color Available - Black and White

# Nylon Grill

This is the most recommended bird net. Very strong and durable its totally transparent hence aesthetically most appropriate for the household purpose. The breaking strength of Nylon filament is the highest of all polymers. Nylon Nets easy to clean with blowing air it is as good as new always.

## FEATURES OF NYLON GRILL:

- \*Very strong and durable.
- \*The aesthetics of the building or place is not affected as the net is transparent, UV stabilized, no effect of sun or rain Does not block air or light.
- \*Economical as compared to steel and aluminum nets.
- \*Customized as per the client's requirement.
- \*No rusting or corrosion like metal nets.
- \*A harmless way to eliminate pigeon menace.

## NYLON GRILL

### Product Details:

Material	- Nylon.
Shelf Life	- 2 - 5 yrs.
Yarn Breaking Strength	- Approx 23.08 Kg
Applicable Area	- Residential or Agricultural Area.
Length	- 10-15 meter

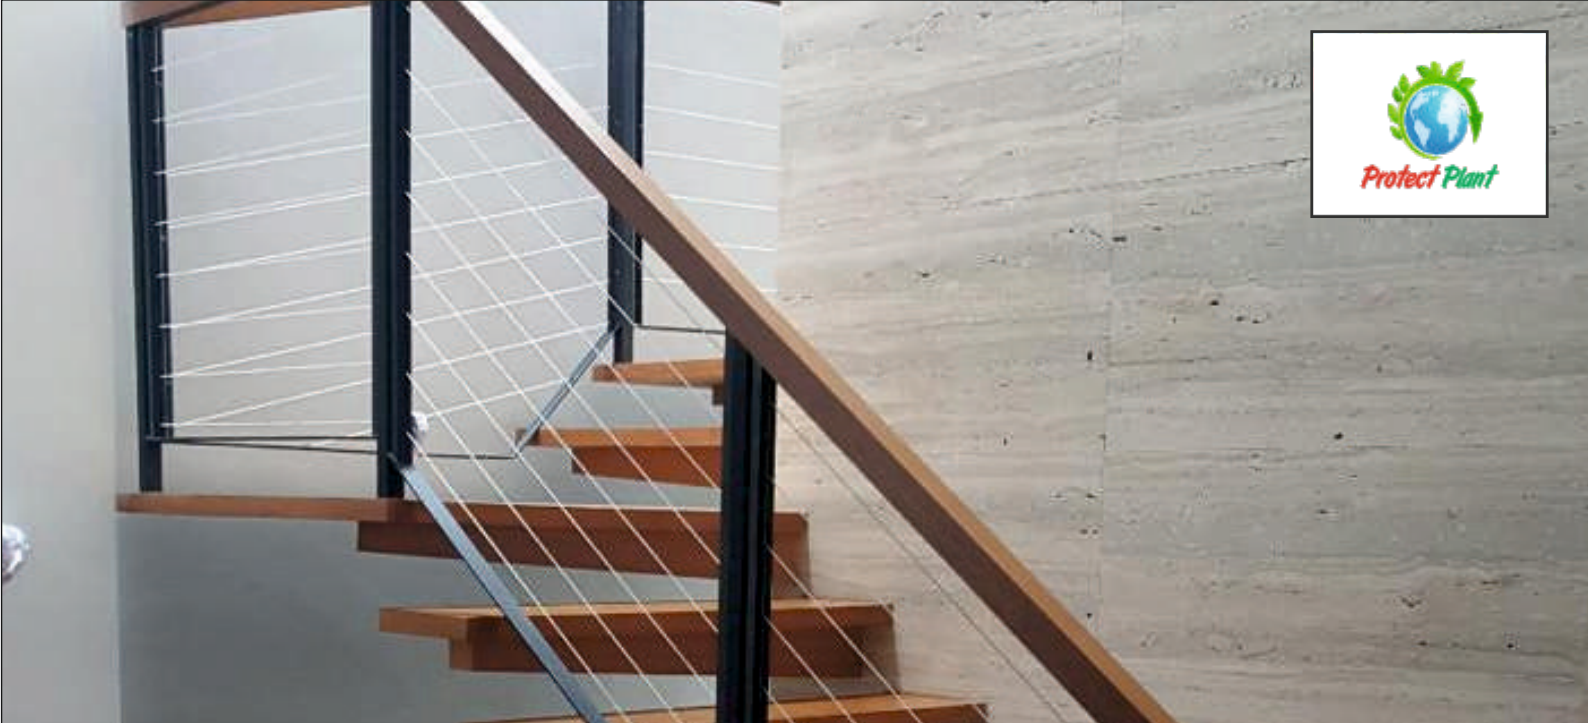

## APPLICATION

### TECHNICAL

**MATERIAL :- GLASS FIBRE**  
**GAP:- 25 MM, 50MM**  
**THICKNESS:- 2MM**

Invisible Grill is an advanced grill system, it doesn't spoil the view.
