

DENT PULLER

Namtech FY-9B

FEATURES :

- » Microprocessor control system optimizes the welding parameters.
- » Due to adoption of advance digital control technology and user friendly design, all you have to do is select the welding current corresponding to the workpiece thickness to achieve the best weld quality.
- » Light weight and portable.
- » Automatic mains voltage monitoring.
- » Overheating protection.
- » A welding gun test function to evaluate the usage status of the welder.
- » Suitable for dent pulling of different kinds of car steels such as conventional steel and stainless steel.
- » High precision time adjustment system.
- » Equipped with single - side spot gun.
- » Complete with triangle washers for dent pulling.
- » A variety of welding procedures are available such as shrinking, washer,

TECHNICAL SPECIFICATIONS :

Input Voltage	AC 220 or 380V, 50/60Hz
Input Power	12.3 KVA
Input Current	32 A
O/P Voltage	1 - 13V
O/P Current	3500A
Welding time	0 - 99s
Thickness	0.8 + 1.2mm
Weight	35 Kg.
Dimensions	35x60x82 / 22x35x25 cm
