

DIGITAL WHEEL BALANCER

Made in Italy

A Trusted Companion

IAS-ANZ

S2116H

A low rotation speed balancer. Entry level model of the motorised range, the machine offers great value for money and occupies a very limited space, granting professional performances.

Guided ALU S program

S2117H

Same as S2116H but equipped with wheel cover. The particular cover design reduces the overall machine dimensions and allows the balancing of wheels up to 1.016 mm (40") in diameter with cover closed.
