About Us

Brishaa Enterprise is a well-known name in India industry that has been offering products like Single Phase Heavy Duty Dehumidifier, HEPA Air Purifier, Room Humidifier, Car Air Purifier, etc. to customers. We are a responsible manufacturer and supplier that uses latest technology to design and develop our products. Features like easy installation, user-friendliness, low power consumption, less maintenance, etc. have made our products the first choice of esteemed customers. The components used in the production process of our offerings are procured from reliable vendors who are quality-driven like us. Buyers who trust us with their purchases always receive the best, and our track record supports the same. We always ask for feedback from customers, as this enables us to improve our products and serve customers more effectively.

Brishaa Enterprise excels as a technically advanced and quality-driven manufacturer of Single Phase Heavy Duty Dehumidifier, Advance Home Dehumidifier, Laboratory Dehumidifier, Sharp Air Purifiers and more. Based in Kolkata, West Bengal, India, our production house is robust and this enable us to serve buyers in an exceptionally well manner. The foundation stone of our company was laid in the year 2019, and since then, our growth has been at a tremendous pace. Apart from the quality of our products, we are popular among customers for strictly adhering to industry norms. We will continue to serve customers in transparency and bring the best for them at fair rates.
