About Us

Supporting the growth of companies, which are indulged in fabrication of roofing sheets, guard rails, door frames and other products through development of advanced array of machines is ASR Industries. We are a top-class machines manufacturer, having our spacious and ultra-modern production unit located in Ghaziabad, Uttar Pradesh (India). We are active in developing lasting relationships with customers by providing innovative Corrugated Sheet Roll Forming Machine, Sheet Roll Forming Machine, Door Frame Forming Machine, Strut Channel Forming Machine, Roll Forming Machine False Ceiling Roll Forming Machine and other machines. Our ability to manufacture aforementioned hi-tech machines in different capacities makes us an ideal choice of customers at an international level. Our steady business growth and development, since our formation in the year 2005, is the result of high business acumen possessed by Mr. Ankur Kaushal and Mr. Sachin Yadav, partners in the company. Their unique concept of approaching customers and motivating employees for better and faster production are helping the company stay in tune with market demands and advancements in the industry.

ASR Industries is considered a premier company in India for introducing hi-tech machines such as Sheet Roll Forming Machine, False Ceiling Channel Roll Forming Machine, C & Z Purlin Roll Forming Machine, Guard Rail Roll Forming Machine, Roll Forming Machine, Glazed Roof Tile Forming Machine etc. Robust in structure, innovative in design and highly functional in use, our array of machines is designed, developed and produced applying modern techniques of production. We have knowledgeable, dynamic and smart workforce to handle production to delivery tasks. Since we aim at growing the standards of various production companies, we ensure fast delivery from our location i.e., Ghaziabad, Uttar Pradesh (India). Our logistics partners support us in the same and ensure safe delivery is made within scheduled time period.
