About Us

Since its inception in 2010, Innovative Cooling Solutions has emerged as one of the prestigious manufacturers and exporters of premium quality PVC Fill Media, Drift Eliminators & Industrial Nozzles for cooling tower applications and Biodek Media, Fab Media (MBBR Media), Lamella Plates (PVC tube settler) and Air Diffusers for water and wastewater treatment application. Manufactured in compliance with industry set norms and parameters, using good quality metal, cutting-edge technology and advanced machinery, these products are extensively demanded around the globe in chemical, petrochemical, pharmaceutical and food processing industries.

Innovative Cooling Solution founded in 2010, in Gurugram, Haryana, India, manufactures and supplies Moving Bed Biofilm Reactor, Tube Settler, PVC Cooling Tower Fills, MBBR Media, PVC Tube Settler, and more. Customer satisfaction is a key aspect of the company's business philosophy. Innovative Cooling Solution feels that a long term business relationship can be established by product reliability, responsive communication, timely support and consistent service. The company strives to know the customer needs and deliver value-providing products. It provides a wide variety of products and is customer centric, seeking to be a reliable business partner to organisations looking for water treatment and cooling solutions.
