

# Cattle Feed Supplement

# ANTI KETOSIS

## COMPOSITION:

Each ml contains

Propylene glycol ....900 mg  
Choline chloride..... 80 mg  
Cobalt Chloride .....80 mg  
Potassium iodide .....40 mg  
Sorbitol.....q.s

## DOSAGE :

Administer as a drench or mix in drinking water or feed.

## CATTLE:

Ketosis: 240ml twice daily

Debility and convalescence:120-240ml daily.

For debility and convalescence in calves, sheep and goats administer 30-60ml daily

The normal dose may be diluted up to 10X with water and administered in 3-4 divided doses.

**WITHDRAWAL :** MEAT and MILK: Nil

## INDICATIONS:

Prevents ketosis in cattle, sleepy sickness in sheep/goats, and supports recovery in debility/convalescence.

## BENEFITS:

- Increases glucose levels, reducing ketone production
- Supports liver health and fat metabolism
- Enhances energy metabolism

## PRESENTATION :

500 ml , 1 ltr , 5 Ltr & 10 Ltr

# CALCIUM SUSPENSION

## COMPOSITION:

Each 100 ml contains

Calcium.....	6500 mg
Phosphorus.....	3500 mg
Vitamin A.....	50000 I.U.
Vitamin D3.....	10000 I.U.
Vitamin B12.....	200 mcg
Magnesium.....	30 mg
Chromium.....	4000 mg
Zinc.....	500 mg
Tri choline citrate.....	500 mg
Carbohydrates.....	40000 mg
Asparagus recemosus .....	300 mg
Leptadinea reticulata.....	800 mg

## DOSAGE :

By Orally

Large animals : 50 – 100 ml Per Animal Per day

Small animals : 25 ml Per Animal Per day

## BENEFITS:

- Supports bone health and muscle function
- Essential for milk production and lactation
- Helps prevent milk fever and hypocalcemia
- Supports overall health and immunity

## PRESENTATION :

1 ltr , 5 Ltr ,10 Ltr, 20 Ltr & 40 Ltr

# MULTIVITAMIN LIQ

## COMPOSITION:

Each 10 ml contains

Vitamin A.....	550000 I.U.
Vitamin D3.....	110000 I.U.
Vitamin E .....	1000 I.U.
Vitamin B12.....	20 mcg
Vitamin H .....	20000 mcg
Copper .....	1000 mcg
Chromium .....	9000 mcg
Selenium .....	200 mg
Zinc .....	200 mg

## DOSAGE :

By Orally

Large animals : 10 ml Per Animal Per day

Small animals : 2-5 ml Per Animal Per day

## BENEFITS:

- Strengthens udder tissues, helps prevent mastitis
- Improves reproductive performance in breeding bulls and dairy animals
- Enhances hair coat, strengthens hooves
- Supports immune system, reduces disease susceptibility
- Promotes weight gain, improves feed efficiency
- Enhances energy levels, overall well-being

## PRESENTATION :

250 ml , 500 ml & 1 ltr

# CALCIUM SUSPENSION GOLD

## COMPOSITION:

Each 100 ml contains

Calcium.....	12000 mg
Phosphorus.....	6000 mg
Vitamin A.....	50000 I.U.
Vitamin D3.....	10000 I.U.
Vitamin B12.....	200 mcg
Manganese Glycinate .....	80 mg
Chromium Glycinate.....	200 mg
Zinc Glycinate.....	500 mg
Copper Glycinate.....	100 mg
Biotin .....	120 mcg
Potassium.....	20 mg
Carbohydrates.....	40000 mg
Asparagus recemosus .....	500 mg
Leptadinea reticulata.....	1000 mg

## DOSAGE :

By Orally

Large animals : 50 – 100 ml Per Animal Per day

Small animals : 20-50 ml Per Animal Per day

## BENEFITS:

- Improves calcium level
- Supports bone health and muscle function
- Essential for milk production and lactation
- Helps prevent milk fever and hypocalcemia
- Supports overall health and immunity

## PRESENTATION :

1 ltr , 5 Ltr ,10 Ltr, 20 Ltr & 40 Ltr

# GLYCOGENIC PRECURSOR

## COMPOSITION:

Each Ltr Contains

Vitamin B1 .....	100 mg
Vitamin B2.....	145 mg
Vitamin B6.....	400 mcg
Vitamin E.....	3000 mg
Vitamin D3.....	2500 IU
Cyanocobalamin .....	750 mcg
Trisodium Citrate .....	72 mg
Lactic acid.....	20 mg
Niacinamide .....	5 gm
& Bio active chromium	

## DOSAGE :

By Orally

Large animals : 50 – 100 ml Per Animal Per day

Small animals : 20-50 ml Per Animal Per day

## BENEFITS:

- Provides rapid ATP and glucose precursors, bypassing rumen fermentation.
- Supports carbohydrate metabolism and energy production.
- Enhances insulin sensitivity and glucose utilization.
- Offers antioxidant protection during metabolic stress.
- Supports calcium and phosphorus balance for milk synthesis and bone health.

## PRESENTATION :

1 ltr , 5 Ltr, 10 Ltr

# LIVER TONIC

## **COMPOSITION:**

Ferric Chloride, Vitamin B1, Vitamin B12, Niacinamide, Yeast Extract, D Panthenol, Choline Chloride , Liver Extract.

## **DOSAGE :**

By Orally

Sheep/Goat: 10- 15 ml twice daily.

Calves: 20- 25 ml twice daily.

Cows/Buffaloes: 50 ml twice daily.

## **BENEFITS:**

- Anti-Oxidant.
- Hepatoprotective.
- Reduces blood lipids.
- Helps in liver regeneration.
- Increases liver cell synthesis.
- It also increases milk production.
- Protects the liver from the effect of toxins.
- Supportive treatment in deficiencies.
- Enhances growth, productivity, and efficiency.
- Improves livability and peak performance & develops body resistance against diseases.
- Appetite improves FCR, promotes growth, increases milk yield and prevents liver disorders.
- As a general tonic to use regularly to enhance liver functioning, Improves FCR and weight gain.

## **PRESENTATION :**

500 ml, 1 ltr , 5 ltr , 10 ltr, 20 ltr, 40 ltr

# ANTI BLOAT LIQ

## **COMPOSITION:**

Each ml contains  
Simethicone, Anethi Oil, and Soyalecithin.

## **DOSAGE :**

By Orally  
Cattle/Buffalo: 50-100 ml (twice daily if necessary).  
Calves/Sheep/Goat: 10–30 ml.

## **BENEFITS:**

- Relieves bloat (ruminal tympany) and gaseous distension
- Prevents ruminal stasis and indigestion due to gas accumulation
- Reduces abdominal discomfort and improves rumen function
- Helps restore normal digestive processes
- Supports overall gastrointestinal health in cattle

## **PRESENTATION :**

100 ml, 200 ml , 500 ml Pet amber colour Bottle

# TOXIN BINDER POWDER

## **COMPOSITION:**

HSCAS, Propionic acid, Bacillus Subtilis , Benzoic acid , Sorbic acid Formic acid, Citric acid, and Acetic acid ,Turmeric, Activated Charcoal, Mannan-oligosaccharides (MOS) and Beta-glucans

## **DOSAGE :**

Cattle/Buffalo: 30-40 gm per animal

Calves/Sheep/Goat: 15-20 gm

## **BENEFITS:**

- Binds to mycotoxins in contaminated feed, preventing absorption
- Reduces risk of mold-related diseases and promotes overall well-being
- Maximizes nutrient utilization from feed
- Supports reproductive health and performance
- Supports dairy productivity and profitability
- Ensures toxins are safely removed from the body
- Reduces toxin burden on the liver
- Supports immune system function
- Minimizes stress caused by mycotoxin exposure
- Promotes overall health, including hoof condition
- Supports healthy growth and development

## **PRESENTATION :**

1 kg , 5 kg , 25 kg

# BY PASS FAT

## COMPOSITION:

Each 100 gm Contains

Calium Propionate.....	2 gm
Rumen Bypass Fat.....	17 gm
Live Yeast Culture.....	6 gm
Rumen Bypass Protein.....	2 gm
Caclium .....	2 gm
Jivanti .....	1500 mg
Shatavari.....	1500 mg
Amino acid .....	50 mg

## DOSAGE :

By Orally

Large animals : 150 gm Per Animal Per day

Small animals : 25-30 gm Per Animal Per day

## BENEFITS:

- Enhanced milk production and quality
- Improved reproductive health and fertility
- Boosted immunity and overall health
- Increase Milk fat
- Supports bone health
- Better energy utilization and nutrient absorption
- Supports immune function, skin health, and overall well-being

## PRESENTATION :

500 gm, 1 kg , 5 kg & 25 kg

# IMMUNOMODULATOR LIQ

## COMPOSITION:

Each 100 g contains:

Malt extract.....	22 gm
Calcium gluconate.....	10 gm
Ferric ammonium citrate.....	1.5 gm
Protein Hydrolysate.....	1 gm
Copper sulphate.....	0.48 gm
Cobalt chloride.....	7 mg
Folic acid.....	8 mg
Cyanocobalamin.....	72 mg
Cholecalciferol.....	18000 IU
Niacinamide.....	220 mg
Biotin.....	357 mg

## DOSAGE :

Cattle & Buffalo : 30-50 gm per day per animal

Calves , Sheep & Goat : 10-15 gm per day per animal

## BENEFITS:

- Supports healthy growth and development
- Enhances milk production and quality
- Promotes healthy skin and coat
- Supports immune system and overall health
- Helps prevent deficiencies and stress-related disorders

## PRESENTATION :

2 kg , 5 kg , 10 kg , 20 kg

# PROBIOTIC POWDER

## COMPOSITION:

Each 1kg contains :

Live Yeast Culture.....	30 gm
Lactobacillus Acidophilus.....	1 million CFU
Live Lactobacillus sporogenes.....	500 million CFU
Fructooligosaccharide.....	500 mg
Amino Acids.....	30 gm
Liver Extract.....	500 mg

## DOSAGE :

Large Animals (Cattle, Buffalo):

General maintenance: 10 to 15 grams per head per day.

Lactating or high-yielding animals: 20 to 30 grams per head per day.

Commercial feed mixing: 1 to 1.5 kilograms per ton of cattle feed.

Small Animals (Sheep, Goats, Calves):

2 to 10 grams per head per day, thoroughly mixed into the daily ration

## Benefits:

- Improved Feed Efficiency
- Maximizes nutrient utilization from feed
- Helps break down complex feed components like fiber, starch, and protein.
- Increases milk yield and supports better weight gain in cattle, buffalo, and calves.
- Promotes beneficial gut bacteria, reduces risks of indigestion and acidosis, and boosts overall immunity.
- Ideal for stress management during feed changes, deworming, or post-antibiotic recovery.
- Liver extract promotes detoxification and metabolism
- Amino acids boost vitality, immunity, and aid in recovery during periods of stress or illness.

## PRESENTATION :

500 gm, 1 kg , 5 kg & 25 kg

# CALCIUM GEL

## COMPOSITION:

Each 100 gm contain

Calcium(Ca <sup>++</sup> ).....	6600 mg
Phosphorus.....	3400 mg
Vitamin A .....	45000 IU
Vitamin D3.....	38000 IU
Vitamin B12.....	400 mcg
Cobalt.....	125 mg
Manganese.....	30 mg
Zinc.....	250 mg
Propylene Glycol.....	1000 mg
Carbohydrate.....	10000 mg

## DOSAGE :

By Orally

Administer one full bottle/tube (eg, 300g–500g) 6–12 hours before expected calving and a second bottle within 6–12 hours after calving.

If condition continues, consult your veterinarian.

Total dose will vary according to the animal's condition.

## BENEFITS:

- Prevents milk fever and associated complications
- Increases milk yield
- Effective in treating prolapse cases
- Supports rapid growth and development
- Enhances bone strength and density
- Helps prevent hypocalcemia (low calcium levels)
- Promotes healthy muscle function and nerve transmission
- Supports immune system function
- Helps prevent conditions like rickets and osteomalacia
- Ensures optimal calcium levels for overall health and well-being

## PRESENTATION :

300 gm

# ELECTROLYTE LIQUID

## COMPOSITION:

Each 100 ml contains

Calcium Lactate.....	120 mg
Potassium Chloride.....	1860 mg
Sulphate.....	300 mg
Sodium Chloride.....	292 mg
Sodium Acid Phosphate.....	624 mg
Sodium Citrate.....	4215 mg
Dextrose Monohydrate.....	40000 mg

## DOSAGE :

By Orally

Cow/Buffalo/Horses: 200 ml. daily

Calves: 100 ml. daily for 5 days

## BENEFITS:

- Overcomes stress period.
- Prevent dehydration stroke.
- Maintains electrolyte balance.
- Regulates BMR.
- It's Useful in negative energy balance.
- It's also useful in ketosis.
- Useful in diarrhea and hypocalcemia.

## PRESENTATION :

1 Ltr, 5 Ltr, 10 Ltr , 25 Ltr

# ANTI MASTITIS POWDER

## COMPOSITION:

Each 50 gm contains

Potassium Iodide.....	7 gm	Lacto Bacillus.....	200 million CFU
Trisodium Citrate.....	35 gm	Live Yeast Culture....	50000 million CFU
Vitamin A.....	60000 IU	Aloe Vera.....	100 mg
Vitamin D3 .....	20000 IU	Zinc Sulphate.....	150 mg
Vitamin E.....	1500 IU	Ocimum Sanctum.....	1000 mg
Vitamin K.....	400 IU	Azadirachta Indica.....	4000 mg
Vitamin C.....	750 mg	Bromelain.....	320 mg
Vitamin H.....	25 mcg	Sodium Selenite.....	10 mg
Niacinamide.....	2000 mg	Copper Sulphate.....	1200 mg
Riboflavin.....	200 mg	Cobalt sulphate.....	50 mg

## DOSAGE :

Dissolve 50 gm powder in 250 ml water or mix with jaggery for single administration it is recommended for 5 day.

## BENEFITS:

- Formulated with anti-inflammatory agents to reduce udder discomfort, swelling, and teat blockage.
- It helps prevent and manage udder infections (mastitis), reduces pain.
- Packed with vitamins (like Vitamin E and C) and minerals that boost the animal's natural immune system to fight off pathogens.
- Helps maintain optimal pH balance in milk, prevents blood in milk, and lowers somatic cell counts for better safety and shelf life.
- Acts as an effective co-therapy alongside standard veterinary antibiotic treatments.

## PRESENTATION :

1 Monocarton : 5 Sachets x 50 gm each

# SPECIAL PROTEIN FAT

## COMPOSITION:

Each 1 kg contains

Fermented soya .....300 gm  
Bypass fat.....450 gm  
Iron.....11 gm  
Copper..... 1 gm  
Cobalt..... 500 mg  
Manganese ..... 2 gm  
Sodium Selenite..... 10 mg

Chromium picolinate..... 20 mg  
Vitamin A ..... 1000000 IU  
Vitamin D3..... 200000 IU  
Vitamin E.....5 mg  
Vitamin H ..... 1 mg  
Niacinamide ..... 1 mg  
CDP .....5000 mg  
Calcium ..... 235 gm

## DOSAGE :

Cow/ Buffalo : 150 gm per day per animal

Calf : 25-30 gm per day per animal

## BENEFITS:

- Promotes faster growth.
- Better metabolic function helps in metabolizing and utilizing protein, vitamins, and minerals.
- Improve gut health
- Stimulate natural immunity
- Protect organs like the liver.
- Enhanced milk production and quality
- Improved reproductive health and fertility
- Boosted immunity and overall health
- Improving fat % of milk
- Supports bone health
- Better energy utilization and nutrient absorption
- Supports immune function, skin health, and overall well-being

## PRESENTATION :

1 kg, 5 kg , 25 kg

# UTERINE LIQUID

## COMPOSITION:

Calviceps Purpurea, Abroma Augusta, Peganum Hermala , Bambusa Arundinacea  
Plumbago Zeylanica , Saraca Indica ,Asparagus racemosus,Nigella sativa, Withania  
somnia, Composite roots, Peucedanum graveolens, Zingiber officinale, Carum  
copticum, Curcuma longa, Linum usitatissimum, Selenium , Folic Acid , Magnesium

## DOSAGE :

Cleaning of uterus Just after calving:

Cattle/Buffalo: 100ml twice a day for 5 days OR 200ml once for 5 days.

Sheep and Goat: 40ml twice a day for 5 days

Retention of Placenta:

Cattle/Buffalo: 100 ml after every 3-4 hours interval until complete  
expulsion of the placenta.

Sheep and Goat- 40 ml twice a day for 5 days

## BENEFITS:

- Enhances uterine contractions leading to complete removal of placenta and uterine debris just after calving.
- Restores uterine lining & mass.
- Prevents inflammation.
- Helps expel retained placenta quickly and effectively
- Prevents uterine infections and post partum complications
- Prevents silent heat and repeat breeding

## PRESENTATION :

500 ml , 1 ltr

# GROWTH PROMOTER LIQ

## COMPOSITION:

Each 100 ml contains

Methionine Activity (MHA).....	750 mg	Folic Acid.....	0.2 mg
Lysine Hydrochloride.....	65 gm	Inositol.....	25 mg
Choline Chloride.....	65 gm	Niacinamide.....	250 mg
Sodium.....	460 mg	Histidine.....	105 mg
Phosphorus.....	150 mg	Arginine.....	156 mg
Magnesium.....	600 mg	Aspartic Acid.....	805 mg
Zinc.....	15 mg	Threonine.....	305 mg
Iron (Ferrous).....	225 mg	Serine.....	318 mg
Copper.....	160 mg	Glutamic Acid.....	478 mg
Cobalt.....	225 mg	Proline.....	96 mg
Manganese.....	400 mg	Betaine.....	350 mg
Selenium.....	5 mg	Glycine.....	712 mg
Biotin.....	120 mg	Peptides.....	200 mg
Vitamin B12.....	1.5 mcg	Nucleotide.....	200 mg
Inositol.....	625 mg	Alanine.....	235 mg
Vitamin A.....	80000 IU	Cysteine.....	100 mg
Vitamin B1.....	250 mg	Valine.....	215 mg
Vitamin B2.....	25 mg	Leucine.....	356 mg
Vitamin B6.....	200 mg	Isoleucine.....	225 mg
Vitamin D3.....	58000 IU	Pantothenic Acid.....	150 mg
Vitamin E.....	375 mg	Tyrosine.....	295 mg
Vitamin K.....	50 mg	Phenylalanine.....	211 mg
Biotin.....	0.2 mg	Tryptophan.....	55 mg

## DOSAGE :

Large Animals (Cattle, Buffalo):20 ml in the morning and evening

Small Animals (Sheep, Goats, Calves):10-15 ml in the morning and evening

## BENEFITS:

- Promotes rapid, healthy body weight development in calves and beef cattle by improving nutrient absorption.
- Enhances milk production in dairy cows by stimulating liver function and maximizing feed-to-milk conversion.
- Activates white blood cells, strengthening the immune system and helping cattle recover faster from infections or periods of stress.
- Maximizes the conversion of feed to body mass, ensuring the cattle gain more weight on less food while preventing production losses
- Supports reproductive health and increases fertility in female breeders.

## PRESENTATION :

1 Ltr , 5 Ltr, 10 Ltr, 25 Ltr

# MINERALS & VITAMIN BOLUS

## COMPOSITION:

Each bolus contains :

Vitamin A .....	5750 I.U
Vitamin D3 .....	1150 I.U
Vitamin E.....	650 mcg
Calcium.....	480 mg
Copper .....	5 mg
Cobalt .....	0.25 mg
Ferrous .....	24 mg
Iodine.....	5 mg
Manganese .....	95 mg
Magnesium .....	32 mg
Phosphrous .....	320 mg
Selenium.....	1 mg
Zinc .....	5 mg

## DOSAGE :

1 bolus per day per animal or as directed by veterinarian

## BENEFITS:

- For optimal follicular growth
- To improve conception rates in repeat breeders
- To improve immune responses and vaccination titers
- To effectively meet animals niacin requirements in primary and secondary anorexic conditions .
- Helps to maintain optimum reproductive health after calving
- Helps to maintain optimum calving interval
- Helps to maintain Fertility.

## PRESENTATION :

6 gm Bolus: 10's pack

16 gm Bolus: 10's pack

6 gm Bolus: Strip of 4 (1x4 Nos)

# CALCIUM BOLUS

## **COMPOSITION:**

Each bolus contains :

Calcium  
Phosphorus  
Magnesium  
Vitamin D3

## **DOSAGE :**

- 2 boluses 12 to 24 hours before calving
- 2 boluses immediately after calving
- 1-2 boluses 10 - 12 hours after calving
- 1-2 boluses 24 hours after calving

## **BENEFITS:**

- Supports bone health and development
- Enhances milk production and quality
- Promotes healthy growth and fertility
- Reduces risk of milk fever

## **PRESENTATION :**

6 gm Bolus: 10's pack

16 gm Bolus: 10's pack

6 gm Bolus: Strip of 4 (1x4 Nos)

# PROBIOTIC BOLUS

## COMPOSITION:

Each bolus contains :

Live Yeast Culture.....	3 gm
Amino Acids.....	2 gm
Live Lactobacillus sporogenes culture.....	20 million CFU
Liver Extract.....	5 mg

## DOSAGE :

- By Orally:
- Large animals : 1-2 Boli per day
- Small animals : ½ Bolus per day

## BENEFITS:

- Inappetence
- Indigestion
- Bloat
- Persistent Diarrhoea
- Debility
- Supportive Therapy with Antibiotic Treatment

## PRESENTATION :

6 gm Bolus: 10's pack

16 gm Bolus: 10's pack

6 gm Bolus: Strip of 4 (1x4 Nos)

# HEAT BOLUS

## COMPOSITION:

Each bolus contains :

Saccharomyces cerevisiae.....	220 mg
Lactobacillus acidophilus.....	2 mg
Lactobacillus subtilis:.....	2 mg
DL-Methionine.....	500 mg
L-lysine.....	200 mg
Manganese chelated.....	70 mg
Zinc chelated.....	100 mg
Cobalt chelated.....	20 mg
Copper chelated.....	55 mg
Selenium.....	2 mg
Amylase.....	30 mg
Lipase.....	30 mg
Protease.....	20 mg
Cellulose.....	30 mg
Beta glucanase.....	30 mg
Xylanase.....	30 mg

## DOSAGE :

Cow, Buffalo :1 Bolus Daily For 10 Days

## BENEFITS:

- Improves gastrointestinal function and stimulates appetite.
- Increases milk productivity and raises fat percentages.
- Promotes smooth, healthy skin with a natural shine.
- Ensures proper metabolism and supports liver health.
- Lowers stress and minimizes overall medical expense

## PRESENTATION :

6 gm Bolus: 10's pack

16 gm Bolus: 10's pack

6 gm Bolus: Strip of 4 (1x4 Nos)
