

KYORITSU KEW 2510

Digital Temperature / Humidity Logger | Type K Thermocouple | Data Logging

Product Overview

Compact digital temperature and humidity logger with Type K thermocouple probe. Simultaneously displays temperature (°C) and relative humidity (%). Suitable for environmental monitoring, HVAC checks, process control and laboratory applications. Features data hold, backlight, and intuitive menu controls for easy operation in the field.

Key Specifications

Temperature Range	Type K: -50 ~ 250 °C
Humidity Display	Relative Humidity %
Probe Type	Type K Thermocouple
Display	Dual (Temp + Humidity)

Functions	HOLD / MENU / Backlight
Buttons	P/Δ/J, Light, Power
Form Factor	Handheld + External Probe
Brand	Kyoritsu KEW Series

Simultaneous Temp & Humidity Display • Data Hold • Backlight • Compact Handheld Design
