About Us

Siyak Steel International has emerged as a leading entity in the field of manufacturing, supplying, and exporting high-end industrial metal products in accordance with contemporary industrial requirements. Being fully aware of the customer concerns regarding quality, durability, and engineering perfection, we have gained positive feedback from numerous clients who are satisfied with the results of our operations. We have developed a large product line that consists of different products that many industries can employ, namely nickel alloy pipes and tubes, nickel alloy flanges, stainless steel flanges, carbon steel angles, stainless steel tube sheets, Inconel and duplex clad plates. By maintaining the highest quality and durability level of every offered product,

we are able to cooperate with representatives of different industries easily. Every product is characterized by its amazing corrosion resistance properties, excellent mechanical strength, and long-lasting durability. While being produced from high-quality raw material and having gone through modern production technologies, every product can withstand high temperature, high pressure, wear, and difficult working conditions. Advanced level of craftsmanship leads to perfect production, accurate sizes, and fitting, wherein the requirements of clients are strictly followed.
