

MANGAL ENGINEERS AND CONSULTANTS

AUTOMATIC VOLTAGE CONTROLLER

Servo Stabilizer :
Upto 5000 KVA

AVC (Unbalanced Type)

Inner view of Stabilizer

APPLICATIONS

- Cement Plants
- Flour Mills
- Engineering Units
- Hospitals
- Tea Estates
- Pharmaceutical Units
- Cold Storages
- Rolling Mills
- Nursing Homes
- Textiles Mills
- Paper Mills
- Rice Shellers
- Rubber Industries
- Clubs
- Food Processing Units
- Oil & Vanaspati Plants
- High Rise Buildings
- Tube Mills
- Footwear & Leather Units
- Distilleries & Beverages
- Hotels & Restaurants
- Glass Industries
- Chemical Industries
- Testing and Research Stations

ADVANTAGES

- Reduction in Breakdown of Electrical Equipments
- Reduction in MDI
- Energy Saving
- Improvement in Power Factor
- Uniform Quality of End Product
- Onload Stepless voltage variation
- Long Service Life
- High Mechanical Strength
- High Efficiency & Minimum Losses
- No Wave Form Distortion
- 80% Depreciation as per Income Tax Act.
