

Professional Machinery & Automation Component Products Manufacturer in Taiwan

- (1) **Precision Servo Planetary Gearheads:** Various mounting including inline, right-angle, flange, hollow shaft, stainless steel, NEMA; spur gears & helical gears; various frame sizes & wide torque ranges, diverse ratios, custom also available (e.g., shaft type, shaft dia., or length).
- (2) **Planetary Gear Motors:** AC, BLDC planetary gear motors.
- (3) **Gear Motors:** various power ranges (e.g., 10W~1KW).
- (4) **Stepper Motors & Drive:** various stepping angles & wide torque ranges & mounting ways
- (5) **Brushless DC Motors & Drive:** wide power ranges or voltage choices; AGV BLDC motor, etc
- (6) **Linear Actuators:** compact, economical or heavy loading models
- (7) **Industrial Reducers:** for machine applications requiring for higher torque
- (8) **Other Mechanical components:** such as bearings, indexers, etc.
- (9) **Other Gearboxes:** bevel gearboxes, bevel helical gearboxes, etc.
- (10) **Specific or Custom Motors:** such as wash-down motor, stainless steel motor, IP67 motor, NEMA motor, pump motor, etc.

Standard & Custom Products Available

- **Industries:** machinery, automation, motion control, power transmission, machine tool, medical, defense, and so forth.
- **Applications:** machine tool, packaging machines, food machines, plasma cutting machines, water-jet, bending machines, textile machines, printing machines, drilling machines, lathes and turning machines, milling machines, grinding machines, metal-forming machines, beverage processing machines, agricultural machines, shoemaking machines, wooden machining, laser cutting machines and so on.
- **Key Features:** high quality & competitive prices.

For detailed specifications/ dimensions, please contact with PCCM TECH.
