

Fibrous Bran Sample Analysis Report

Four-Angle Multi-Perspective Visual Capture (1000 × 1000 pixels)

VISUAL DOCUMENTATION

The quad-angle composite grid below details the physical texture, flake morphology, and structural cohesion of the fibrous bran sample across multiple perspectives.

SAMPLE SPECIFICATIONS & PARAMETERS

Capture Layout	Quad-Angle Composite Grid (2×2 Matrix)
Resolution Format	1000 × 1000 pixels standard frame
Material Classification	Coarse fibrous cereal bran / organic feed aggregate
Quality Assessment	High fiber integrity, uniform flake distribution, and optimal dryness
