

Granular Grain Sample Analysis Report

Four-Angle Multi-Perspective Visual Capture (Polished Grain / Broken Rice Matrix)

VISUAL DOCUMENTATION

The quad-angle composite grid below details the grain size distribution, surface polish, pile mound profile, and loose dispersion characteristics of the sample.

PHYSICAL SPECIFICATIONS & PARAMETERS

Capture Layout	Quad-Angle Composite Grid (2×2 Matrix)
Resolution Format	1000 × 1000 pixels standard frame
Material Type	Polished grain / broken rice aggregate
Quality Metrics	Grain uniformity, breakage percentage, and surface clarity
