

Hand Sample Material Inspection Report

Four-Angle Multi-Perspective Visual Capture (Granular / Powder Material)

VISUAL DOCUMENTATION

The multi-angle composite grid below demonstrates the tactile texture, particle distribution, and consistency of the material sample held in hand across four distinct orientations.

PHYSICAL ATTRIBUTES & PARAMETERS

Capture Perspective	Quad-Angle Palm, Dorsal, and Tilt Grid (2×2 Matrix)
Resolution Format	1000 × 1000 pixels standard frame
Material Texture	Fine powdery to granular organic/mineral aggregate blend
Inspection Focus	Cohesion, dusting characteristics, and particle size uniformity
