

Material Sample Analysis Report

Four-Angle Multi-Perspective Visual Capture (1000 × 1000 pixels)

VISUAL DOCUMENTATION

The composite grid below illustrates the analyzed sample across four distinct perspectives, highlighting texture, granularity, fibrous integration, and close-up morphological characteristics.

SAMPLE SPECIFICATIONS & PARAMETERS

Capture Layout	Quad-Angle Composite Grid (2x2 Matrix)
Resolution Format	1000 × 1000 pixels standard frame
Visual Composition	Top-down surface view, dense fibrous pile, low-angle profile pile, and macro texture close-up
Sample Characteristics	Granular mineral matrix interwoven with fibrous straw / organic particulate components
