

QUALITY ASSESSMENT & SPECIFICATION REPORT

Multi-Angle High-Resolution Visual Inspection (Coarse Feed Matrix)

Figure 1.0: Quad-Panel Multi-Angle Visual Frame (1000 × 1000 pixels)

Visual Perspective Analysis

This report documents the characteristics of the inspected coarse feed sample across four perspectives: **(1) Top Container View** showing bulk surface distribution, **(2) High-Contrast Angle** highlighting particle edges, **(3) Macro Texture Detail** revealing granular breakdown, and **(4) Secondary Angle** ensuring complete visual verification.

Technical Specifications & Parameters

Specification Attribute	Recorded Detail
Frame Resolution	1000 × 1000 pixels (Quad-Panel Layout)
Sample Appearance	Coarse Golden-Brown Feed / Granular Composite Matrix
Surface Morphology	Uneven coarse flakes intermixed with fine particles and meal

Lighting Conditions	Standard ambient illumination ensuring clear particle definition
Inspection Status	Approved - Meets Standard Quality Criteria

Inspection Summary

The sample demonstrates consistent texture and uniform composition across all four viewing panels. Granule size distribution is within acceptable parameters with proper dryness and absence of foreign contaminants.
