About Us

Bio Medical Devices is the leading manufacturer and exporter of SS Trocar, Wound Drainage Instruments, SS made Disposable Close Wound Drainage Trocars in different sizes for medical applications in close wound suction unit. We are supported by a team of talented personnel having rich experience and have a well fitted Research and Development facility which enables us to offer quality and innovative products to our patrons. We are an ISO 9001:2000 accredited company so our clients can be assured about the quality of products.

Combining advanced technology with quality, we take pride in introducing ourselves as Exporter, Manufacturer and Distributor of SS Trocar in different sizes FG-6, FG-8, FG-10, FG-12, FG-14, FG-16, FG-18, FG-20, FG-22, FG-24, FG-26 and FG-28. We have been successfully in serving and supplying these Trocars to various ISO certified and CE marked companies in India and through direct export to various countries across the globe. Trocar: It is a sharp and pointed shaft with three sided point. It can be used with a cannula, a hollow tube which is designed to be inserted in vein, bone marrow, artery or body cavity. Trocar is derived from French trois (three) + carre (side). It is a three side hollow cylinder with a sharply pointed end which is used in introducing cannulas and similar implements into the body cavities or blood vessels. Trocars are also used as ports in laparoscopic surgeries.
