## About Us

When working in an engineering domain, focusing on research and development is of prime importance. At Accelus Robotics Private Limited, one can observe regular researches going on to bring forth Computer Embedded Box, Mild Steel PLC With Motion Controller, Meteor CNC - 3H Series, 3 Axis CNC Controller, Meteor CNC-4H Series and more of nonpareil quality. R&D being our founding pillar, we, as a manufacturer, make constant investments in it to ensure we remain technologically advanced. Besides, it is the proficiency of our people with which they complete each and every task that not only ensures timely accomplishment of all the goals, but makes our business partners happier.

One of the biggest tasks, when running a business, is product planning. Since we are a product-based company, at our company, the manufacturing of a product begins from the stage of product planning. A product like Meteor CNC-4H Series, Computer Embedded Box, etc., is planned keeping in view the market demands, customer preferences and future needs. Our research analysts carry out thorough business research to have deeper insights of the product, its functioning, purpose, future demand, etc.

## Our Products

**MeteorCNC 4t Series  
Wood Lathe Controller**

**IPC150 Industrial Panel  
PC (IPC)**

**MeteorCNC 4H Series  
Multihead CNC Router**

**Industrial Panel PC**

**MeteorCNC 3H Series 3  
Axis CNC DSP**

**IPC101 Industrial Panel  
PC (IPC)**

**IPC133 Industrial Panel  
PC (IPC)**

**IPC121 Industrial Panel  
PC (IPC)**

**IPC185 Industrial Panel  
PC (IPC)**

**Meteor CNC-4H Series  
4 Axis DSP CNC**

**Meteor CNC 3H Series 3  
Axis DSP CNC**

**3 Axis And 4 Axis CNC  
Controller**

**Embedded Motion  
Controller**
