Dudani Group, the parent company of Krano Cranes, has a long history of success and social responsibility.

Established in the 1970s with a focus on mining explosives, the group has diversified into various sectors including construction, mining equipment, oil, electrical supplies, commercial tyres, natural stones, tiles, sanitary ware, PEB manufacturing and even medical equipment manufacturing.

The group's real estate division has built a portfolio of impressive structures in Himatnagar. Additionally, they operate a surgical cotton manufacturing facility in Changodar, Ahmedabad, and own Arcedges Building India LLP, which is among the top PEB companies in India with facilities meeting international standards, located at Shamlaji, Gujarat.

Driven by a commitment to excellence since 1990, Dudani Group ventured into engineering consultancy and later established Krano Cranes in 2020, upholding their dedication to quality.

WHO ARE WE?
