## KNACK PACKAGING

### HDPE/PP Woven Fabric, Sacks/Bags (Laminated-Unlaminated)

We manufacture Flat / Circular HDPE / PP fabric for converting into packaging, sheltering & covering products. The fabrics are available in the range of 25 cm to 150 cm in circular form & 50 cm to 300 cm in flat form.

We also provide HDPE / PP bags with different special features like Top Hemming, Gussets , Micro Perforation , EZ - Open, Handle / D - Cut, Liner and Extrusion lamination. These bags are used for packing Grain ,Pulses, Flour, Seeds, Fertilizers, Cement, Sand, Granules etc.

### Multicolor Printed BOPP Laminated PP woven Sacks / Bags

We are specialisers of Multicolored printed BOPP laminated PP woven bags with superior qualities like High tensile strength, impeccable physical properties. These bags are available with Highly competitive price and customization.

We offer these bags with Multicolor printing upto 8 colors and also with the special features like Gussets , Micro Perforation, EZ - Open, Handle / D - Cut,Back Seam, etc

We make various kinds of bags like Grain & Pulses Bag , Seeds Bag , Food & Spices Bag , Animal Foods Bag,Fertilizers and chemicals Bag, Cement & Wall finish Bag, Powder & Granules Bag, Minerals Bag, Detergent Bag,Mehndi Bag, Nuts & Fruits Bag , Speciality Bag for Tea & Coffee, Outer Promotional Shopping Bags and these bags can be delivered from the packaging capacity of 5 Kgs to 75 Kgs.

### Leno / Mesh Bags

PP Leno bags are widely used for packing onions, potatoes, corns, cabbages, seafood and citrus products, etc. Due to the high level of air permutability Mesh bag provide better self life for the products which require air intake. This bags are low in weight so they are very convenient in transportation.

It is ideal and disposable for packaging of agricultural produces and animal feeds, etc. Heat sealed labels with your logo on the bags are available.

### Animal Food Bags

### Jumbo Bags (FIBC / Big Bags)

A Flexible Intermediate Bulk Container, FIBC , big bag, bulk bag, or super sack is a standardized container in large dimensions for storing and transporting and storing for example sand, fertilizers , granules of plastics or other dry products. It can offer load carrying capacity of 100 kg to 2500 kg.

It is most often made of thick woven polyethylene or polypropylene and normally measures around 110 x 110 cm and varies in height from 100 cm up to 200 cm. Its capacity is normally around 1000 kg but the larger units can store even more.

### Paper Bag (Multiwall & Paper/Woven)

These bags are made of multiple layers of kraft paper which gives it great strength. The inner layer is sometimes laminated or specially coated to protect the contents from harmful contamination and to keep the contents fresh. The construction materials specified in each case are determined by the product itself and the degree of product protection required to safeguard its quality.

We also manufacture Kraft Paper extrusion laminated with HDPE woven fabric. These bags could be used for packaging of Tea, Coffee, Spices, Milk Powder. Cement etc.

### Flexible Packaging Materials

Our flexible packaging material and plastic packaging materials are durable and provide necessary protection to the packed products during transportation. We offer packaging material in various dimensions, thickness and load carrying capacities, taking into consideration various parameters like end use, specification of the product, shelf life and market conditions etc.

We are offering the same in Roll form as well as Pouch Form

### Wide Range of Coating / Laminating Solutions ( Adhesive / Extrusion )

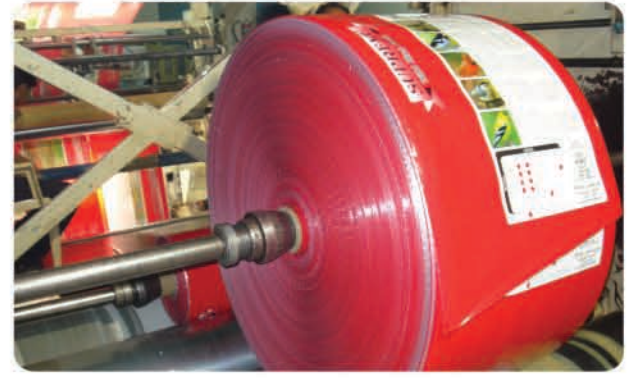

We are providing wide range of Coating / Laminating Solutions for various materials like PET, Aluminium foil, Paper with foil, etc.

We provide Extrusion & Adhesive lamination for lamination of Paper with foil, Jute, Non-woven fabrics with woven fabrics, Polyester, BOPP etc. We can also provide customized solution.

### Tarpaulin

Our Polyethylene woven tarpaulin is today's answer to old-fashioned nylon or canvas tarpaulin. Manufactured under stringent control, they're durable, water-proof, weather-resistant, yet surprisingly light. Economical and convenient, they're good for all kinds of uses like Truck Cover , Boat Cover, Utility Cover , Campers Use, Luggage Carrier , Windbreak, Tent Floor, Container Liner, Civil Engineering
