

V-CRETE COLOR RELEASE

Colored Stamping-tool Releasing Powder

TECHNICAL DATA SHEET

Description:

V-CRETE COLOR RELEASE contains a specially formulated releasing agent that forms a moisture barrier between the stamping tools and wet concrete, allowing easy release of imprinting tools. It is a dry-shake material applied directly on top of the concrete surface treated with V-CRETE COLOR HARDENER prior to stamping. The colored releasing agent contains iron-oxide pigments that add color and depth to the stamped surface.

TYPES OF APPLICATION:

- Stamped Concrete

METHOD OF APPLICATION

- Preparation - All surrounding areas should be protected from residue arising during dry shake of product.
- Application - After all color hardener is applied and/or final troweling is completed, and when bleed water has evaporated from the surface, V-CRETE COLOR RELEASE should be applied.
- Broadcast Procedure - Empty half of the contents of one bag into a clean, dry container and aerate material to loosen any compaction before broadcasting onto a surface. Apply lightly and evenly over area using a casting motion, using caution in windy conditions. Two applications may be required for uniform coverage. We recommend that you apply one or two rows ahead of the stamping tools rather than covering the entire surface at once.
- Finishing: After stamping and after the concrete has set and dried, remove the excess color by rinsing with potable water. Use a lighter, quicker rinsing action for the grout lines and deeper indentations. Removing most of the release from the high spots and leaving more of the color in the deeper areas will enhance antique effect for a beautiful, more natural finish.

STORAGE & PACKAGING INFORMATION

COVERAGE

1000 sft/9.10 kg Bag
in standard conditions

SHELF LIFE

Best before 24 months
from date of packaging

PACKING & STORAGE

9.10 Kg Lined HDPE Bags
Store in dry environment

HEALTH & SAFETY INFORMATION

- Ensure protecting areas not being treated with color
- For professional use only
- Keep away from any kind of moisture
- Keep out of the reach of children
- Not for human internal consumption in any form. Please seek immediate medical advice in case of accidental consumption
