

# V-SEAL DC118

Penetrating Methacrylic Sealer For Decorative Concrete

## TECHNICAL DATA SHEET

### Description:

Imparts a durable, glossy, wet look on concrete surface. These solvent-based sealers are manufactured from premium, super-tough, non-yellowing acrylics. Protects exterior decorative concrete and enhances color. Can be roller or spray applied

### TYPES OF APPLICATION:

- Stamped Concrete
- Sand Faced Concrete
- Exposed Aggregate Concrete
- Form-Finished Concrete Surface

## METHOD OF APPLICATION

- Do not apply to fresh concrete. Recommended minimum time for concrete to cure prior to application is 7 days
- The surface must be clean and completely dry
- Apply with medium to heavy nap non-linting roller or high volume-low pressure sprayers with adequate drying time between coats
- Allow final coat to cure for a minimum 24 hours before opening to light traffic and 72 hours before opening to heavy or vehicle traffic
- Do not dilute the product or add any thinning agent before application
- In case of old concrete surface, the same must be clean and completely dry prior to application
- In case of any doubt, please contact company representative before application

## Technical Information

PROPERTIES	STANDARDS	RESULTS
Ph value	IS 903-1999	7.3
Solid content (%)	IS 903-1999	25-27
Specific Gravity	IS 903-1999	Less then 1
Chloride Content (%)	IS 903-1999	<.0010

## STORAGE & PACKAGING INFORMATION

**COVERAGE**  
35 - 40 SqFt/Ltr

**SHELF LIFE**  
Best before 12 months  
from date of packaging.

**PACKING & STORAGE**

- 25 litres Can
- Store in a cool, dry and firesafe environment

## HEALTH & SAFETY INFORMATION

**Solvent-based product and therefore caution must be exercised in its use.-**

- Adequate ventilation will be necessary with the personnel wearing appropriate PPE such as gloves, eye protection, respirators, solvent resistant clothing etc.
- Keep out of the reach of children.
- For external applications only. NOT RECOMMENDED FOR WORKS IN INTERNAL AREAS
