WASTEWATER TREATMENT PLANT

About Us

With increase in pollution levels, there is a strong need for clean and pure water for both domestic and specialized industrial purposes. Waste water treatment systems are increasingly sought to purify chemically treated water with maximum efficiency and promptness. We, The Eimco-K.C.P Ltd., are a prominent manufacturer, supplier and exporter, offering specialized equipments for liquid and solid separation as well as biological treatment processes, waste water treatment processes and more. Our product range comprises of waste water treatment system, biological wastewater treatment systems, mechanical bar screens, trickling filters, coarse bolt filters, extractor horizontal belt filters, agitator disc filters, belt filters, flocculators, etc.

Our products and services find application in a variety of industries like mineral processing, chemical processing, food processing, pulp and paper manufacturing, municipal & industrial water and waste water treatment. Having decades of experience in providing equipments and technology for total water management for various industries, we can also provide complete services for various processing industries. Being an ISO 9001 certified company, we ensure superb quality products at the best competitive rates to all our clients. In 1967, the company was started as a joint venture company between EIMCO-K.C.P. Ltd. based in Chennai and EIMCO Corporation, USA. Today, it is a full subsidiary of KCP Sugars and Industries Corporation Ltd., Chennai, India.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	Waste water treatment equipments,filtration equipment
No of Staff	100
Year of Establishment	1967
OEM Service Provided	No
ProductRange	Waste water treatment equipments,filtration equipment

Our Products

Dewaxing Filter

Spiral Classifier

Drive Heads

Circular Mechanical Clarifiers

Clean Water Treatment Clarifiers

Dewaxing Plant

Industrial Reactor Clarifiers

Industrial Waste Treatment Thickener

Effluent Wastewater Treatment Plant

Spiral Classifiers

Water Treatment Clarifier

Industrial Thickeners

Dewaxing Filters

Fixed/Floating Aerators

Sludge Dewatering Systems

Flocculator .
