## About Us

In the year 2019, we, Arctic Engineering Co., have laid our foundation and within few years were able to attain the trusted brand reputation in the national and international markets. Our company is currently operating as a renowned manufacturer, exporter and trader, under the tutelage of Mr. Prabakar P. (Proprietor). He is a very talented and experienced professional who is a true inspiration of every individual employee in our company. With his guidance, the products we are offering to customers include Godrej Single Phase Motor, Mild Steel Conveyor Gearbox, Cast Iron Worm Reduction Speed Reducer, Worm Gear Reducer, Helical Inline Geared Motor and varied other products. All these equipment have excellent performance and durability as they are outfitted with hi-tech components.

The incredible quality of our products increases their demand across the world and because of this we are gaining huge popularity in the industry. Not only our products but also our Biomass Powder Plant Project Work and Heat Energy Project Work are applauded by the clients for their cost-effectiveness and favorable results. We as a service provider, try to render solutions in the best possible manner which fulfills the expectations of the clients. In the coming years, we would like to cover more countries around the globe.
