Look Smart Buy Smart with Smartpanel

Smart Panel

We are happy to introduce our brand new and most advanced latest technology plant and machinery from all over the globe for making Plain & Pre-laminated Particle board, with one of the most modern and sophisticated manufacturing facility located at Sangli, Maharashtra.

A strong commitment of manufacturing best quality products has made Smartpanel, a numero uno brand in particle board manufacturing. Our impeccable quality products are widely accepted in the industry for features like unmatched strength, superior finish and lots more. No matter what the product is, the common ingredient in them all is care. From our top management to the highly motivated workers who man the plant, the Smartpanel family is committed to keeping the highest standards of quality. This is why we regularly upgrade the plant, to make sure not just the latest, but also the best practices are adhered to, in production. It is a 100% eco-friendly product.

When you choose Smartpanel, you choose expertise.

Smart People Smart Choice

WHO WE ARE

OUR MISSION

Save Nature With Eco-Friendly Products

The world is developing every day and we continue to discover new and innovative ways to better our quality of life. Environment refers to the natural surroundings and conditions in which we live.

Dwindling forests and rising global temperatures have led people to realize the need to save the woods. An increasing number of people are opting for eco-friendly furniture, Eco-friendly furniture is actually a popular trend at the moment, which not only offer a rich look, but are also inexpensive.

We are dedicated to environmental improvements that foster a sustainable future and lead to social and economical improvements in the community we do business.

Our mission is to create cleaner safer neighborhoods in which we live by working together to improve our local environmental quality.

OUR VISION

- Promoting an industry-leading safety culture
- Reaching operational excellence in terms of quality, cost and reliability through technology and know-how
- Setting the standard in innovation of our products
- Leading the industry in sustainable development
- Providing an outstanding customer experience
- Outperforming the industry in growth

Integrity

Integrity extends beyond our product's enduring structural strength; it is our uncompromising dedication to doing the right thing. Every day, in everything we do, we cultivate long-term relationships with a vision to promote Eco-Friendly lifestyle. We strongly believe in balancing the need of today with that of tomorrow.

First Quality Ingredients that make the difference

Smart-panel uses top-quality Bagasse particles bonded with a proprietary resin formulation developed, its smooth, dense and non-porous surface makes it ideal for laminating and machining.

Easy to cut, Smart-panel particle board gives a clean result without chipping: a significant advantage that optimizes production time and zero wastage. Smartpanel particle board is available in our full collection of all Different and new fresh colors.

Quality Control

We adhere to all the relevant legal norms and regulations while manufacturing the products and ensure eco friendly products to our clients. At Smartpanel we are committed to delivering excellent products that are sustainable and quality driven. We follow clean and white hat business practices that have helped us maintain a strong trusted relationship with our clients.

Be Eco Friendly and Go with Smartpanel

SMARTPANEL PARTICLE BOARD

Our particleboard stands out from the competition, thanks to its specially bonded, top-quality raw material. Its smooth surface and exceptional machining ease, making it the ideal choice for commercial and residential applications. Manufactured at our state-of-the-art facilities, Smartpanel particleboard is the Perfect choice for in all market segments in both residential and commercial applications. In addition to producing top-quality particle board With fresh new colors are available in different finishes.

Our Products

PLAIN PARTICLE BOARD

Size

- 8x6 (2.44 m x 1.83 m)
- 9x6 (2.75 m x 1.83 m)
- Special size on request

[Note: Panel has 8x6 or 9ft size hence all size variants can be cut out from primary panel with zero wastage or loss.]

PRE LAMINATED BOARD

Thickness

- Particle Board - 8mm to 25mm

Surface Finishes

- Suede • Matt • Special Textures
- Glossy • 3D • High Glossy

Why Smartpanel

- Advantage of latest advance International Technology.

- With advanced technology for Hot Air 3 Pass Dryer Ensures Optimally Dried Particles uniformly.

- Cage forming technology Ensures Uniform Grading of Particles for Face & Core

- The unique 9-cylindered press ensures perfect pressure & temperature uniformly across the length & width of every mats.

- Advantage of 20- Daylight Multi Opening press & Simultaneous closing ensures uniform pressure & temperature.

- With advanced technology Sanding Machine, ensures an ultra smooth surface ideal for lamination in short cycle press.

- With advanced technology Short Cycle Press, ensures perfect edge to edge lamination without any changes of delamination of lamination defect.

- Due to compact higher compression & the uniform particles layout in the core ensures a high screw holding strength in the core.

- Panel has 8' x 6' and 9' x 6' size, hence all size variants can be cut out from the primary panel with negligible wastage or loss.

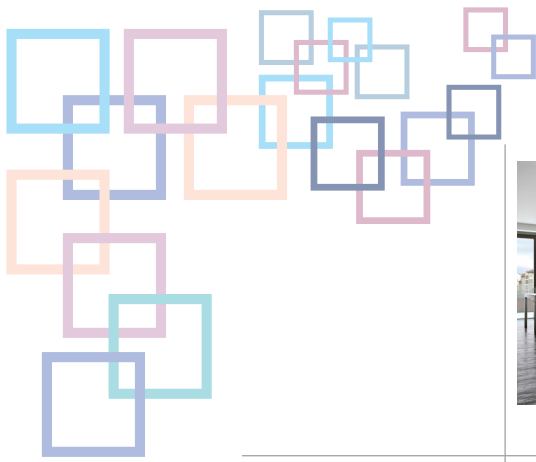

- Panel has made from 100% Eco-friendly raw material

Unique Characteristics of Smartpanel

- | | | | |
|---|--|---|---|
|  | • Environment Friendly,
Manufactured from Agro waste |  | • More Durable & Strong |
|  | • Best International Technology |  | • Resistant to termite,
Fungus & Borer |
|  | • One Roof Production facility of
Motherboard to Pre-lam Boards |  | • Zero Wastage Panel |
|  | • Quality Control System |  | • Zero Bubble Finish |
|  | • Innovative Products Range |  | • Fresh Trendiest Designs in
Pre-laminated Particle Boards |
|  | • Guaranteed Thickness |  | • Prompt Delivery and Services |
|  | • Ultra Smooth Sanding Surface |  | • Value For Money & Time |
|  | • High Screw Holding Capacity |  | • Vocal for Local |
|  | • Dimensional Stability & High
Performance |  | • Make in India & Made in india |

FEATURES	ADVANTAGES	BENEFITS
Higher density at both top and bottom	Higher impact resistance	Does not get dents easily when a sharp object falls on it
Three layered structure	Coarse particle in the middle	Good screw holding capacity, leading to strong joinery
Calibrated product	Uniform thickness	Ease of application of edge binding tapes
Planned particle geometry	Strong bonding between particles	Screws are held in place strongly, can also be removed and re-fixed all over again
Availability of various sizes	Multiple sizes	Helps in cutting plan, thereby saving on wastage
Melamine treated decor paper	High Scratch resistance	Can withstand normal scratches
	Resistance to Heat	Can withstand heat in case any hot items are placed on the furniture
Compact edges	No pores or pin holes and gaps	Edges can be conveniently and easily treated with PVC tapes

Applications

● All type of Modular Furniture

● False Ceiling

● Writing Boards

● Filler Boards

● Different types of Racks

● Office Furniture

● Packing Boards
(Box Packing)

● Partition, Wall Paneling,
Wall and Column Cladding
