About Us

Himford Healthcare is grown out of the idea to become a platform that provides authentic and easily accessible information of common medicines and drugs to masses in a transparent manner. That idea culminated into a tangible form when we laid the foundations of our organisation 2014. We are actively taking forward our vision to serve the mankind as a trusted manufacturer, supplier, trader and wholesaler of various types of medicines including, but not limited, to Alkalik Syrup, Appicyp Syrup, Aceclofenac and Paracetamol Tablets, Dry Powder and Multivitamins Tablets. Today, we are serving people in more 1000+ cities across India with quality medicines in collaboration with licensed and verified pharmacies. With our optimistic approach and innovation, we have been successful in bringing forth effective pharmaceutical solutions time and again. Ever since we started our journey, we continued our march toward becoming a reliable pharmaceutical company and today, we are proud to be one with a portfolio of effective pharma products.

We are particularly dealing with common medicines and drugs that are used by a vast section of the population. With our commitment and dedication, we have earned the trust and satisfaction of our customers and a wider acceptance for our uncompromising quality in the industry. With a work culture seeped in excellence, we have become one of the most preferred choices of the customers. We have built an environment of trust and integrity in the conduct of business which have helped us to establish cordial relations with our partners and create a team of 3000+ committed Himfordians. We have displayed exemplary dedication as a team to reach a stage where we are reckoned among the top pharmaceutical companies in India.
