## About Us

With the exponential growth of diseases, the need for various medical and research-related products like Agar Plate, ESR Pipette, Vacutainer Blood Collection Tubes, Yumizen H500 Ct Hematology Analyzer, Cotton Crepe Bandage, Binocular Microscope, etc., have grown rapidly. Our company, Royal Diagnostic & Surgical, is known as one of the leading traders, suppliers, and retailers of such products. We provide our customers with top-quality products and that has helped us set a strong foothold for ourselves in the market. Our good market reputation and professional work ethic have helped us gain the trust of our clients. We give our hundred percent to each project and make sure that we uphold the trust that our customers have put in us. Moreover, our more than 10 years of experience in this industry gives us an edge over our competitors. Our expert team of professional analyze the latest market trends and needs and supply our products according to that.

Our company, Royal Diagnostic & Surgical, was started in 2009, to meet the growing requirements of medical-related products like Non Woven Accurex AccuTest Hbs Ag Test Kit, Keto Diastix Reagent, Surgical Gloves, Biochemistry 100 Reagents, Infrared Thermometer, etc. We supply our products from New Delhi, and today, we have become one of the leading traders, suppliers, and wholesalers of such products. The policies of our company are so designed that every employee gets an equal opportunity to grow and hone their talents. Our customer complaint policies ensure that every grievance and query of our clients are listened to, and solved as quickly as possible. Furthermore, our procuring team helps us do business with some of the most reputed vendors in the market. The products that we procure go through various quality-assured tests to make sure that only the best is supplied to our clients. Our expert team of employees works in a unison and makes sure that every project is completed within the specified time frame.
