About Us

We, **Malaprabha Industries** started our company in the year **1987** and have since been a **manufacturer, supplier and service provider** of the most technically advanced solutions. Our high quality range includes products like DC Solar Water Submersible Pump, **DC Solar Pump Controller, DC Solar Pump Controller Set, Solar Rooftop Systems, etc.** We manufacture the SGM Brand submersible pump which have ISI mark and three star rating from the Bureau of Energy Efficiency, New Delhi. We have acquired the ISO 9001:2015 certification. We have also started the production of solar pump as per MNRE specification under the KUSUM scheme provided by the Govt. of India. Moreover, our solar pump sets are tested at UL Lab Bangalore as per the MNRE guidelines.

The request for the machinery and equipment that our company, Malaprabha Industries provides is always increasing, and in order to satisfy these demands, we maintain a continuous manufacturing line. We have our facility constructed in the city of Belgaum, Karnataka, India, in which latest technology of machines are embedded. Using all the resources from the facilities, we manufacture the highest quality items, such as Submersible Motor, DC Solar Pump Controller, Solar DC Surface Pump, Solar Monoblock Pump, etc. Furthermore, we provide all our high-quality goods at the most competitive costs, and that is why their market appeal has surged, and we are continually trying to increase it even more in the future.

Our Team

There are several complex operations that must be managed by every manufacturer in order to maintain a consistent assembly line. Nonetheless, with the help of our large and dedicated team, we are able to carry out all such complex procedures with ease. Our team of designers, engineers and other skilled professionals uses their expertise to develop high-quality products such as DC Solar Pump Controller Set, DC Solar Pump Controller, and many others. Following the flawless development of these goods, our team ensures that they are tested in accordance with the highest quality criteria.
