About Us

In 1996, Alfa Heat Tech, began its operations. We are an ISO 9001:2015 & IATF 16949:2016 certified company, famous in the market for our Heat Treatment solutions. We operate with the support of highly skilled Metallurgists. We work with the objective to provide help to customers in all types of processes related to Heat Treatment Technology. We deal with Surface, Substrate and Anticorrosion treatments on Metals. As a manufacturer and heat treater we have expertise at developing and supplying efficient Industrial Heat Treating Furnaces, Industrial Oven Furnace, Nitriding Salts, and Hardening Salts.

We also serve the industries by working as a service provider and rendering Nitriding Services, Carburizing Services, Vacuum heat treatment services and Phosphate Coating Services. These are rendered by our trained personnel in a systematic manner and as per the exact requirements of customers.

Key Facts

No of Staff	45
Year of Establishment	1996
OEM Service Provided	No

Our Products

Industrial Heat Treatment Services

Annealing Services

Industrial Hardening Salts

Zinc Phosphate Coating Services

Industrial Heat Furnace

Industrial Oven Furnace

Preheat Treatment Services

Furnace Maintenance Services

Full Annealing Service

Aluminum Heat Treatment Services

Metallurgical Heat Treatment Services

Copper Heat Treatment Services

Hard Steel Hardening Tool

Industrial Nitriding Salts

Industrial Flame Hardening Service

Hardening Steel Tools
