About Us

ABG Urekha has a great reputation in the Indian markets for providing advanced waste management, sewage & drainage systems. As a manufacturer, we strive to meet the specified demands of customers for Bio Septic Tank. Our delivered systems are well-acknowledged for supreme qualities such as no overflow, prevention from ground water pollution, longer life expectancy, enhanced performance, etc. Our manufacturing strategy is purely designed to attain absolute customers satisfaction by providing qualitative solutions within cost-effective price range. This is what distinguishes ABG Urekha from other firms and makes it a better, more preferable and reliable firm for the customers.

To meet our goals & targets, we have a team of professionals who have deep knowledge and understanding in the field. The endeavor of our team remains to act in accordance to customers exact requirements while performing tasks in compliance with the latest industrial standards while adhering to all corporate & environmental responsibilities. Our manufactured range of Bio septic tank has enormous applications, demands and requirements in diversified areas including Schools & Colleges, Apartments, Hospitals, Hostels, Individual Home, Industries, Old Age Homes, Restaurants and Hotels & Resorts.

At Chennai (Tamil Nadu, India), we, ABG Urekha have our well-established production unit with all latest facilities & resources for pulling out the most qualitative Bio Septic Tank. Since 2009, we have been serving and supporting diverse areas with our supreme quality solutions for waste management. Our infrastructural facilities have benefitted us in this competitive domain from day one. The entire workplace has been instrumental for us in practicing innovative work approaches and adapting new technology from time to time. The advanced infrastructure enhances our potential to deliver exactly what the customers seek from us.
