The Best Multi-Vendor Services

Products We Support

GC
HPLC
UPLC
LCMS
GCMS
CE

Brands We Support

AGILENT
WATERS
SHIMADZU

At TechnoLab, we specialize in delivering top-notch services and solutions for Chromatography, Mass Spectrometry, and advanced laboratory equipment. Trusted by professionals across diverse industries, ThomZen is your go-to partner for quality and reliability in analytical instrumentation.

Our Services

AMC

AMC for HPLC, GC, GC-HSS, GCMS, LCMS, CE of Agilent Waters & Shimadzu Make

Qualification

Compliance Assurance: Meets regulatory requirements for accuracy and reliability

Relocations

We are dedicated to delivering top-tier service through meticulous planning, expert handling, and secure transportation.

Preventive Maintenance

Reduced Downtime: Minimizes unexpected breakdowns and operational interruptions

Why Choose Us?

TechnoLab partners with top organizations across Pharmaceuticals, Non-Pharmaceuticals, Research, Manufacturing and more. Our innovative solutions and expertise ensures your critical instrumentation operates at peak performance, Maximizing uptime and efficiency.

Essential Consumables for Superior Chromatography

Peek Nuts & Peek Tubes

Reliable Connections: High-Performance Peek Nuts & Tubes for Your Chromatography System"

HPLC Solvent Filters

"Purity You Can Trust: Ensure Clean and Reliable Solvent Flow

Syringe Filters

Pure Precision: High-Quality Syringe Filters for Contaminant-Free Sample Preparation

Vials, Caps, and Inserts

Available in various sizes and material (glass, plastic) to suit your analytical needs. Secure caps ensure sample integrity, while inserts provide precise volume measurement.

Pump Seals, Frits, Pistons

Available in various sizes and materials (glass, plastic) to suit your analytical needs. Secure caps ensure sample integrity, while inserts provide precise volume measurement.

D2 Lamps

**"Brilliant Precision:
Illuminate Your HPLC
Performance with
Reliable D2 Lamps"**

**Equivalent D2 Lamps
for Agilent, Waters, &
Shimadzu HPLC**

Refurbished Instruments

Renewed Precision: Affordable Excellence in Chromatography

Upgrade your laboratory with cost-effective refurbished systems from leading brands like Agilent, Waters, and Shimadzu.

OUR PRODUCT RANGE:

- HPLC Systems
- GC Systems
- GC-HSS
- UPLC

OUR PROCESS:

- **Inspection:** Thorough evaluation of each unit to identify areas requiring repair or replacement.
- **Refurbishment:** Replacement of critical components, re-calibration, and performance testing to OEM standards.
- **Certification:** Each system undergoes rigorous quality checks and validation before delivery.

WHY CHOOSE US:

- Expert Refurbishment
- Installation & Calibration
- IQ/OQ Services
- Post-Warranty Support
- Cost Savings

LABORATORY EQUIPMENT

Certified Excellence in Laboratory Solutions

Our Featured Products

Category	Key Features
Incubators	Microprocessor-based temperature control, stainless steel interiors
Autoclaves	Fully automatic models with safety features, portable options available.
Heating Equipment	High-temperature ovens, oil baths, and Soxhlet apparatus for diverse applications.
Shakers and Baths	Orbital shakers, water baths, and viscosity baths for precision control.
Specialized Tools	Muffle furnaces, laminar airflow cabinets, ultrasonic cleaners.

WHY CHOOSE US?

- **Certified Quality:** ISO 9001:2015 and GMP certifications ensure product reliability.
- **Custom Solutions:** Tailored equipment for pharmaceutical, food, and chemical industries
- **Innovative Technology:** Advanced features like microprocessor-based controllers, safety cut-offs, and eco-friendly refrigerants.
- **Sustainability:** Commitment to eco-friendly practices and energy-efficient designs

**Experts in multivendor services for
chromatography, mass spectrometry,
and laboratory equipment**
