

White Chickpeas

Product Overview

Capitalise on the growing demand for protein-rich pulses with our premier White Chickpeas, hot-selling among exporters, manufacturers, and suppliers worldwide. Sourced from India, these chickpeas boast a purity of 99% minimum, low admixture (0.5% max), and a moisture content of only 13%. Packed securely in premium PP or jute bags with customized options, each batch delivers export-grade excellence.

Applications & Features

White Chickpeas are ideal for versatile applications across cooking, food manufacturing, and as key ingredients in protein-rich snacks. Their even white color, consistent 8mm size, and premium grade offer reliable quality for culinary and industrial food processing.

Packing & Shipping

Our White Chickpeas are shipped promptly via renowned FOB ports, with packing & dispatch managed for optimal preservation. Packaging options include PP bags, jute bags, and customized solutions tailored to client requirements. Reliable logistics ensure safe and timely global deliveries.
