About Us

Varuna is a reliable manufacturer and supplier of Industrial Sewage Treatment Plant, Precast RCC Sump Tanks, Domestic Sewage Treatment Plant, Water Conditioning System, Skid Mounted Effluent Treatment System, and more. Additionally, we are also a trustworthy service provider offering Sewage Treatment Plant Installation Services, etc. Our company specializes in innovative solutions for water and wastewater treatment. With extensive experience and a strong dedication to environmental sustainability, we are committed to providing high-quality products and services that assist businesses and communities in effectively managing their water resources. Our expertise encompasses the design, manufacture, and installation of comprehensive systems tailored to meet the varied needs of industrial, commercial, and residential sectors.

We take pride in our advanced infrastructure, which is essential for developing efficient and dependable water and wastewater treatment solutions. Our manufacturing facilities are outfitted with state-of-the-art technology and equipment, allowing us to produce robust, high-performance systems that adhere to the highest industry standards. We collaborate closely with our clients to comprehend their specific needs, ensuring that each system is customized to achieve optimal performance, reliability, and cost efficiency.

Our dedication to quality is reflected in every facet of our operations. From sourcing raw materials to final product testing, we follow rigorous quality control protocols that ensure the highest standards of excellence. We recognize the significance of providing solutions that are not only effective but also environmentally responsible. Consequently, we consistently invest in research and development to remain at the forefront of industry trends and regulations.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	bio culture,compact sewage treatment plant,bio culture,effluent treatment chemicals,effluent treatment plant,sewage treatment plant,disinfection tunnel
No of Staff	20
Year of Establishment	2018
OEM Service Provided	No
ProductRange	bio culture,compact sewage treatment plant,bio culture,effluent treatment chemicals,effluent treatment plant,sewage treatment plant,disinfection tunnel

Our Products

Sludge Treatment Plant

SS Sewage Treatment Plant

Automatic Sewage Treatment Plant

Diaki Sewage Treatment Plant

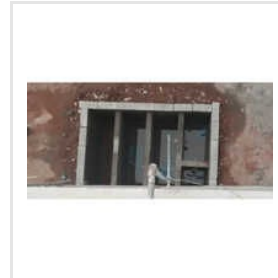

Sewage Water Treatment Plant

Semi-Automatic Sewage Treatment

Domestic Sewage Treatment Plant

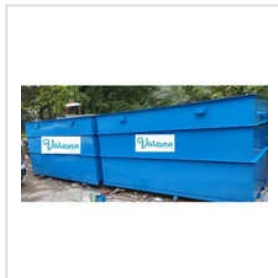

Underground Sewage Treatment Plant

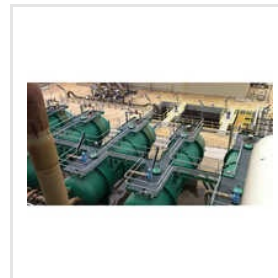

Capsule Sewage Treatment Plant

Sewage Treatment Plant For Twin Lobe Air

5000 LPH Sewage Treatment Plant

30 KLD Capsule Packaged Sewage

Sewage Treatment Plants For Apartments

Sequencing Batch Reactor

Domestic Packaged Sewage Treatment

Modular Precast RCC Eco Sewage Treatment

ADDRESS
