About Us

For over a decade, we at Sarda Enterprise have dedicated our efforts to bringing forth a range of industrial tools that provide our customers with functional accuracy and technical advantages. Established in 2003, we as a manufacturer and exporter bring forth Brass Wire, EW Cable, Carbide Current Pickup, Brazing Wire and many more. These products are widely used in industries such as construction, aerospace, automotive, shipbuilding, electrical engineering and tool industries. Our products are appreciated for high-strength, durability, wear and temperature resistance. While manufacturing their products, we carefully adhere to the industry standards to ensure that our products meet the demands of our customers.

Our operations are carried out from an advanced infrastructure unit in Bhosari, Maharashtra, which has numerous departments including production, storage, packaging, quality testing, and research & development. A group of professionals that oversee these departments works hard to ensure that our products give our consumers the highest level of satisfaction. In addition, we follow a systematic strategy in our operations and uphold complete transparency in our company to win the trust and loyalty of our clients. Additionally, we respond to consumer questions quickly and we take their input into account to improve the efficiency of our business.
