INSULATED RUBBER CABLES

ELECTRICAL POWER CABLE

## About Us

We are a renowned company engaged in production of all kinds of wires and cables under the brand name of 'ECI'. Our company, JRD Cables Inc., was founded in the year 1978, and for the last few decades, we have been exhibiting a brilliant performance as an industry innovator and undisputed leader. Acclaimed by thousands of clients from all over the country, we are today the most respected manufacturer, supplier & exporter in our field. With a reputation for always adhering to supreme grade quality standard, we are an ISO 9001:2008 certified company. The most extensive range of products we offer include All Types of Cables & Wires such as Aerial Bunched Cables, Airfield Lighting Cables, Instrumentation Cables, Rubber Cables, Silicon Cables, Asbestos Braided Cables, Compensating Cables, Copper Control Cables, Domestic Cables, Fibre Glass Braided Cables, Solar Cables, Trailing Cables, Reeling/Unreeling cables with specially formulated compound, FR, FRLS & HFFR Cables, Flat Cables, High Temperature Cables and many more.

JRD Cables Inc. is a quality driven company with the belief that maintaining supreme grade quality standard is the one and only way to win the trust of the valued customers. We have an inherent passion for perfection and strive our best to upgrade the quality standard of our existing products through innovation and continuous research. We are an ISO 9001:2008 certified company for the last thirty five years and our 'ECI' brand cables are inspected, tested and approved by several testing, quality control and research institutes before they are being delivered to the clients. In addition, the products are also tested at our own in-house quality testing lab which is manned by qualified and competent electrical engineers. Only best quality raw materials are used and quality inspection is conducted regularly right from the initial stage of raw material processing, through the various stages of production, and right up to the finished products.
