## About Us

Chemical Pumps & Projects is dedicated to providing the best pumps for various markets and needs. Our group of engineers and technicians uses cutting-edge equipment and technology to build reliable, dependable, and long-lasting pumps. Our pumps are designed to meet the specific needs of each client across a range of industries, such as agriculture, chemical processing, water and wastewater treatment, and more. As per the requirement, one can buy Gear Pump, Sewage Pump, Dewatering Pump, Thermic Fluid Pump, Submerged Pump, etc. from our manufacturer and supplier firm.

The technology we use is modern and makes our pumps flawless category. We are happy that by working hard, we have established ourselves as a reputed entity in such a short time frame. Every single piece is delivered with the assurance of quality, as we check them on different parameters before dispatch.

A team of skilled professionals supports us in procuring raw material, designing ranges, testing, marketing, and other business operations with ease. Apart from having a worthy team, we are backed by reliable partners who source us quality inputs and help with logistics work.

<b>No of Staff</b>	25
<b>Year of Establishment</b>	2018
<b>OEM Service Provided</b>	No

## Our Products

**Submersible Sump Pumps**

**Stainless Steel Rotary Gear Pump**

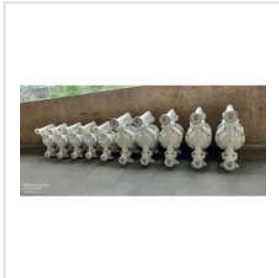

**Centrifugal Monoblock Pump**

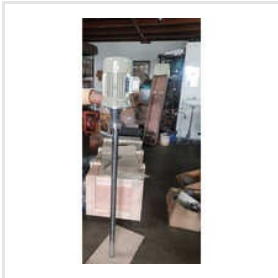

**Diaphragm Pumps**

**Stainless Steel Diaphragm Pump**

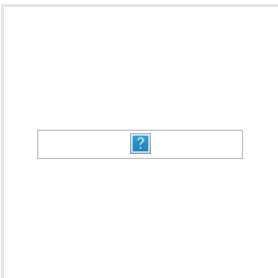

**Pneumatic Diaphragm Pump**

**Motorised Barrel Pumps**

**Aro Air Operated Double Diaphragm**

**Vertical Sump Pump**

**Air Operated Pump**

**Polypropylene Centrifugal Pumps**

**Inger-Soll Rand Aro Diaphragm Pumps**

**Wilden Air Operated Double Diaphragm**

**Aro Non Metallic Diaphragm Pumps**

**Aro Diaphragm Pumps**

**Ss 316 Aodp Pumps**
