A-FIGHTER (Fipronil 5% SC)

Description

A-FIGHTER (Fipronil 5% SC) is a modern insecticide of the phenylpyrazole group that effectively controls insect pests in rice, chilli, cabbage/cauliflower, cotton and sugarcane. It delivers highly effective control at low doses against a broad range of economically important pests.

Mode of Action

Acts through contact, stomach and systemic action. It primarily works as an ingestion toxicant with supplementary contact activity. It interferes with nerve impulse transmission by blocking GABA-regulated chloride channels, disrupting the central nervous system of insects and causing death.

Recommended Dose

Crop	Target Pest	Dose per Acre
Cabbage	Diamond Back Moth	324–400 ml
Chilli	Fruit Borer, Thrips, Aphid	324–400 ml
Cotton	Aphids, Jassids, Thrips, White Fly, Boll Worms	600–800 ml
Rice	WBPH, BPH, GLH, Stem Borer, Leaf Folder, Rice Gall Midge, White Maggot	324–400 ml
Sugarcane	Root Borer, Early Shoot Borer	600–800 ml

Packing Size

100 ml, 250 ml, 500 ml, 1 Litre

Bulk Packing

50 Litre / 100 Litre / 200 Litre Drum

Features & Benefits

• Provides effective and long-duration control of thrips in various crops.

• Ideal choice for Integrated Pest Management (IPM).

• Demonstrates Plant Growth Enhancement (PGE) in many crops.

• Excellent thripicide with broad-spectrum pest control.

Antidote

No specific antidote is known. Treat symptomatically.
