About Us

As the biggest manufacturer and supplier of bright bar machinery in India, Bhambra Engineering Works is known for its unwavering dedication to innovation. Our journey began in 1956 when Sardar Dalip Singh established a modest machine business, which has since grown into a dominant force in engineering. We have successfully met the various needs of over 300 clients across the entire nation with an uncompromising commitment to quality. Our collection includes Bar Drawing Machine, Industrial Bar Peeling Machine, Bar Pointing Machine, Draw Bench Machine, etc.

The fundamental idea of customer satisfaction is what drives our success. We are committed to not only meeting but also surpassing our customers expectations by providing premium goods at competitive prices. We have been able to build partnerships and long-term collaborations for more than 50 years because to this ethos. Our consistent pursuit of excellence and dependability has earned us the trust and loyalty of our clientele throughout the years. Our smooth integration of sales, production, and after-sales care guarantees a thorough and all-encompassing approach to client assistance. This strategy highlights our commitment to fostering long-lasting relationships with our valued clientele in addition to showcasing our passion to supplying top-notch items. Our heritage of excellence, creativity, and customer-focused principles will keep Bhambra Engineering Works at the forefront of the production of bright bar machinery as we look to the future.
