BATCH TYPE VEGETABLE WASHER

This machine can be used for cleaning Whole and/or Cutting vegetables, Fruits in Hotels, Flight Caterings, central kitchens, Institutional Kitchens, some new commercial food projects, etc. It has an efficient mechanism for removing mud, soil, and other dirt particles from the various types of food objects. The Machine is designed with a special arc drum (full SS) and with the help of two nozzles, a strong circular flow is maintained and during this process, the items get pulled down in the water and brought up with the flow. It has a linear actuator that helps to lift the basket and unload all produce in a cate. It has SS Ball Valve for controlling the water level.

Batch Type Vegetable Washer Advantages

Easy to use

Require Less Men Power

WASHER	L(mm)	W IN-FEED (mm)	H IN-FEED(mm)	INSTALLED POWER	BASKETS
AQ80	700mm	550mm	750mm	.80kw	01
AQ200	1100mm	900mm	750mm	.80kw	02
AQ350	1800mm	1400mm	750mm	1.480kw	03
