## CONTINUOUS TYPE VEGETABLE WASHER

Industrial Fruit and Vegetable Washing Machine, also known as commercial fruit and vegetable washing machine, it is specially designed for cleaning fruits and vegetables, herbs. Our fruit and vegetable washer adopts high-pressure spray, bubble surfing, drum filtering and ultrasonic vibration or Ozone cleaning methods to thoroughly clean the dirt on the surface of vegetables and fruits.

Besides, during the cleaning process, an appropriate amount of fungicide can also be added to clean vegetables and remove pesticide residues. While cleaning, materials can be washed completely and thoroughly without damages to material surfaces, taste, and nutrition of materials. The purified water filtered by activated carbon can be recycled, saving 80% of water. Our fruit and vegetable washer was widely used at the food processing plants and business.

### Vegetable Washer Advantages

Turbulent water flow/bubbles to wash all product separately.

Adjustable conveyor speed and water flow.

WASHER	L(mm)	W IN-FEED (mm)	H IN-FEED(mm)	INSTALLED POWER	BLOWER
AQ800	1800mm	600mm	As Desired	4.80kw	02hp
AQ2000	3200mm	600mm	As Desired	5.40kw	04hp
AQ3500	4000mm	600mm	As Desired	7kw	05hp
